Election Took Place Under 2018 Trump declared “National Emergency”

*“EXECUTIVE ORDER ON IMPOSING
CERTAIN SANCTIONS IN THE EVENT
OF FOREIGN INTERFERENCE IN A
UNITED STATES ELECTION.”*

*The 2020 election took place
under a Trump-declared
“National Emergency” that set
an Election Day trap for the
“unauthorized accessing of
election and campaign
infrastructure” by: [Mike Adams](#)*

([Natural News](#)) This story begins with the little-known executive order signed into existence on September 12, 2018, by President Donald J. Trump. That order, [available at Whitehouse.gov](#), is entitled, “Executive Order on Imposing Certain Sanctions in the Event of Foreign Interference in a United States Election.”

In that executive order, which almost no one has covered since the day it was signed, President Trump **declares a national emergency**. That emergency is still in play to this day, and the 2020 election was conducted under this state of emergency, which is a crucial point to understand what's coming next.

“Unauthorized accessing of election infrastructure”

In the EO, the President also states that people and organizations located, in part, outside the United States are known to be able to, “interfere in or undermine public confidence in United States elections, including through the unauthorized accessing of election and campaign infrastructure or the covert distribution of propaganda and disinformation.”

If you're starting to see how this ties in to CNN, the NY Times, the Washington Post and MSNBC, you're not alone. All those organizations, as you'll soon see, have been caught under this emergency declaration of “foreign interference” in U.S. elections, aided by complicit corporations on U.S. soil.

The EO further states that this foreign interference in U.S. elections, **“constitutes an unusual and extraordinary threat to the national security and foreign policy of the United States.”**

Why is this relevant to anything we're seeing right now with the massive election fraud carried out by the Democrats and the deep state? Because **Dominion Voting Systems is a Canadian company**.

That's right. Dominion is a foreign-owned company, which makes Dominion-based election theft a “foreign interference issue.”

Scytl is another voting machine company widely used in US elections. Sytil is located in Spain and is [connected to George Soros and the Democrats](#), and according to The Gateway Pundit, “Bill Gates also own stock in Scytl.”

Dominion is Canadian, Scytl is from Spain; both represent “foreign interference” in US elections and their data routed through servers in Germany

[Great Game India reports](#): *The votes cast by Americans were counted by a bankrupted Spanish company Scytl in Spain. Like Dominion Voting Systems, Scytl has a long history of election fraud in various nations including injecting backdoors in its election software. The issue has prompted experts to question why the sensitive job of counting votes was outsourced to a foreign company? Due to such widespread fraud, the Chairman of the US Federal Election Commission Trey Trainor believes that the 2020 US Presidential Elections is illegitimate.*

Trump's 2018 executive order gives the DOJ the power to seize all assets of individuals and companies that were complicit in aiding or covering up this foreign interference in U.S. elections.

The National Emergency order specifically calls for seizure of all assets of entities that have, “directly or indirectly engaged in, sponsored, concealed, or otherwise been

complicit in foreign interference in a United States election.”

Section 8 of the order explains that the term “person” also means, “a partnership, association, trust, joint venture, corporation, group, subgroup, or other organization.”

In other words, any media organization that assisted in covering up or assisting foreign interference in a U.S. election is specifically targeted by this Executive Order.

Further in the definitions section, the EO explains:

...the term “election infrastructure” means information and communications technology and systems used by or on behalf of the Federal Government or a State or local government in managing the election process, including voter registration databases, voting machines, voting tabulation equipment, and equipment for the secure transmission of election results.

That would include the Dominion voting systems as well as all other voting systems used in the recent election.

Finally, the EO describes what it means by the term “foreign interference.” It means: (emphasis added)

...any covert, fraudulent, deceptive, or unlawful actions or attempted actions of a foreign government, or of any person acting as an agent of or on behalf of a foreign government,

*undertaken with the purpose or effect of influencing, undermining confidence in, or **altering the result or reported result of**, the election, or undermining public confidence in election processes or institutions.*

Note the important words of “altering the result or reported result of the election.” This is *exactly* what Big Tech and the lying fake news media have done to America. More than merely a crime, it's *treason*... and it fell right into the national emergency trap that Trump publicly announced in 2018 which now means all these corporations and organizations can have their assets seized literally overnight.

Trump attorney Sidney Powell describes “staggering statistical evidence” and “staggering witness testimony” about the criminal election fraud that was carried out across America. She adds, “If you want to talk about foreign election interference, we certainly have it now.”

The Gateway Pundit, which has been at the forefront of much of the bombshell reporting of the election rigging conspiracy that took place on November 3rd, reached out to its sources to confirm the military operations in Europe, as related to gathering evidence of election theft. [Here's what TGP just reported:](#)

The US government, once they determined that this Dominion server was involved in switching votes, then

the intelligence community began a search for the server and discovered that the server was in Germany. In order to get access to that server and have it available for use in a legal manner they had to have the State Department work in tandem with the Department of Justice. They had to request that the government of Germany cooperate in allowing this seizure of this server.

The appropriate documents required to affect that kind of seizure were put in place, signed off on... By getting ahold of the server they now are going to have the direct evidence of when they were instructed to stop counting. They will also discover who gave the direction to stop counting and who initiated the algorithm that started switching votes. The CIA was completely excluded from this operation.

The raid appears to have targeted the CIA's Frankfurt server farm operation

We also now have confirmation from WikiLeaks documents that **the CIA used a data center in Frankfurt as a remote hacking base** to rig US elections. [DW.com reported:](#)

WikiLeaks released a trove of CIA documents on Tuesday that it claimed revealed details of its secret hacking arsenal.

The release included 8,761 documents that it claimed revealed details of “malware, viruses, trojans, weaponized

'zero day' exploits, malware remote control systems and associated documentation."

The leaks purportedly revealed that a top secret CIA unit used the German city of Frankfurt am Main as the starting point for numerous hacking attacks on Europe, China and the Middle East.

It appears the CIA was using the same foreign data center to hack the US elections... and got caught.

GOING DOWN: Big Tech, media giants, Democrat operatives and half the deep state

It should be obvious to any informed person that everything Big Tech and the fake news media did to rig this election, then bury the Democrats' massive vote fraud operations, was a covert, fraudulent deception and unlawful action... and it was all carried out on behalf of communist nations like China and globalist operations that are located outside the United States.

Now, Team Trump is in the process of gathering **irrefutable evidence of criminal collusion to carry out election interference**, and the cover-up trails will lead directly to Big Tech (targeted censorship and collusion with China) and the fake news left-wing media (gaslighting propaganda campaign to cover up evidence of foreign collusion).

HAS TRUMP WON BY DEFAULT? Quite Probably

by Newseditors - 2020-11-14

When wholesale fraud and corruption and criminality are employed to steal the quadrennial POTUS election by one of the two major party candidates, the victor automatically becomes the other presidential nominee with the greatest number of electoral votes.

Source: StateOfTheNation.co/?p=35959

In the case of the 2020 POTUS election, the Democrat ticket of Joe Biden and Kamala Harris has been cited for carrying out the greatest election cycle crime wave via fraud and theft in U.S. history. Hence, the prematurely and illegitimately declared Biden victory is now null and void under the law.

Neither Joe Biden nor Kamala Harris have yet to even respond to the countless cases of election fraud currently under investigation... Biden's complete lack of response to this weighty matter speaks volumes about his obvious complicity in this ongoing election theft. As soon as the first court decisions are handed down against the Democrats regarding the extraordinary amount of voter fraud and election theft, the preliminary electoral result will be vacated immediately.

President Trump can then be certified as the President-elect and preparations can begin for his inauguration on January 20, 2021.
