CDC Report Shows MSM, WHO Misinterpreting COVID-19 Data

As mainstream media rhetoric continues to use the coronavirus pandemic to fuel their political agenda, a recent [report from the CDC shows their arguments aren't on solid ground.](#)

The CDC's COVID-19 mortality rates show the organization isn't clearly differentiating between **coronavirus-caused deaths** and **coronavirus-related deaths**.

The CDC claims it abides by the World Health Organization's guidelines when reporting causes of deaths, namely by using the

International Statistical Classification of Diseases and Related Health Problems 10 Edition or ICD-10.

The WHO created two classifications for coronavirus deaths, U07.1 and U07.2, to account for the number cases where a clear cause of death is not able to be determined. U07.1 is meant to be used in cases where a lab was able to confirm the virus was the true cause of death, whereas U07.2 was for all other cases where COVID-19 was just part of a diagnosis.

The American Academy of Family Physicians pointed out the CDC only adopted one category, U07.1, but classifies all coronavirus-related deaths under this code. They said this “leaves room for interpretation about when to use the code,” which leaves physicians without clear guidance.

The CDC's Vital Statistics Reporting Guidance Report doesn't provide much clarity, including defining the underlying cause of death as either “the disease or injury which initiated the train of morbid events leading directly to death or the circumstances of the accident or violence which produced the fatal injury.”

Some coroners, however, are finding the broad description difficult to manage and report they are being expected to classify any death by any cause as coronavirus-related if the patient had or was presumed to have the virus at any point before their death.

“They were actually gunshot wounds,” stated Brenda Bock, a coroner in Grand County, Colorado. “The people had tested earlier in the month for COVID and because they did have COVID, our state Health Department is listing them as COVID deaths.”

For any patient, regardless of whether or not they were exposed to the virus or even tested positive for the virus themselves, there are multiple avenues by which a doctor can apply the U07.1 code. The code is applied in some cases even when other factors are present, most notably influenza or pneumonia. In these instances, the CDC created a new classification of mortality known as PIC.

From February through the first three weeks of December, there were 411,477 deaths due to either pneumonia, influenza, coronavirus or some combination thereof. Of these, 288,287 deaths were coded as diagnosed and

confirmed COVID-19-caused deaths.

Nearly 140,000, however, were said to have been possibly or probably due to COVID-19 and thus received the ICD-10 designation. In light of the overlap, mainstream media outlets have been reporting even higher death tolls.

On Monday, when the CDC had less than 290,000, the New York Times reported 323,002. On that same day, NBC reported 323,012 and CNN reported 322,765.

Despite repeated warnings from the CDC posted all over their website and included in their datasets, the media has taken these numbers and used them to fit their agenda, including perpetuating theories doctors have begun to pick and choose who to treat to try and keep the death toll down.

Trump chooses declassification option to expose Joe Biden and the deep state traitors

Wed., Dec., 23, 2020 by: [Mike Adams](#)

Today's Situation Update (for Dec.

23rd) reveals how Trump appears to have chosen the “declassification” option to expose Joe Biden and the deep state traitors.

Correction: This podcast refers to a Reuters article that announced a test of the emergency broadcast system on Thursday. Upon further review, that article was from a previous year, not 2020, so that point stands corrected.

Here's what you'll learn in today's Situation Update:

- Trump appoints Ezra Cohen-Watnick to Chairperson of the Public Interest Declassification Board, which is responsible for deciding which documents get declassified. Watnick is known to be an ally of Gen. Michael Flynn and Trump. ([Whitehouse.gov](https://www.whitehouse.gov))

- Trump signs new memorandum to allow John Durham and any new special counsel to use classified documents with grand juries in order to seek new criminal indictments against deep state players. This order would also apply to Sidney Powell if she is appointed special counsel in the coming days. ([Whitehouse.gov](https://www.whitehouse.gov))

- More C-17 Globemaster military transports flying into Nevada.
- Rumors that Trump will speak to America on Christmas Day.

- Joe Biden was involved in the 2016 spygate / FISA warrant scandal and may be exposed in the coming document dumps.

- Wisconsin judge testifies that over 200,000 votes were illegal and invalid in that state.

- Join the march in D.C. on January 6th. Trump says, "It's gonna be wild!"

[National File reports](#)

- that the White House has released an internal memo essentially compelling VP Pence to act today, rejecting the electoral votes from states that carried out fraudulent, unconstitutional elections.

- Georgia lawmakers move to certify their own election.

- Arizona lawmakers are working to certify Trump as the true winner.

- Patrick Byrne reveals Trump is just one signature away from unleashing a powerful solution.

- Trump meets with multiple members of Congress to discuss a Jan. 6th solution.

- Giuliani says a big revelation is coming about fraud in Georgia.

Pharmaceutical factory that manufactures hydroxychloroquine mysteriously bursts into flames, explodes

BY ETHANH // 2020-12-24

On Dec. 20, an SCI Pharmtech manufacturing facility in Taoyuan City, Taiwan, [burst into flames and exploded](#), leaving two people injured. The facility, which manufactures [the anti-Wuhan coronavirus \(COVID-19\) drug hydroxychloroquine](#), appears to have been targeted, perhaps by COVID-19 vaccine interests, in an effort to punish the company for manufacturing the inexpensive, highly effective remedy for the novel virus. People as far away as New Taipei City, located in Taiwan's Tamsui District, reported hearing a large blast shortly after noon on Sunday. Immediately following the blast, thick black smoke was seen pouring out of the SCI Pharmtech factory. A 30-year-old

foreign migrant worker suffered third-degree burns to about 90 percent of his body. A 40-year-old man suffered similar burns but only on his hand. The SCI Pharmtech factory in question is the second-largest HCQ provider in Asia. It has since been closed, meaning no more HCQ production for the time being. The nearby Taipei Taoyuan International Airport, however, remains open for travel despite being in close proximity to the deadly blast. Authorities are still investigating the cause of the explosion, which is all too convenient having occurred just days after Big Vaccine started [publicly releasing](#) COVID-19 jabs as the alleged "cure" for the *plandemic*. Pence fails, DECLASS becomes The Priority

Thurs, Dec.,24, 2020 by: [Mike Adams](#)

([Natural News](#)) VP Mike Pence surprised no one yesterday by proving to be a total coward, refusing to issue a letter to the states in which overwhelming fraud has occurred, wherein Pence could have ordered them to submit legitimate electoral votes to Congress. (The Pence-Raiklin Maneuver.) Instead, he remained silent, effectively stabbing Trump in the back. Once Trump achieves his second term, **he should demand Pence's resignation** and replace him with someone who is willing to actually fight for America.
