Questions about face masks

Source: <https://tinyurl.com/eu2s5wc>

Who doesn't have to wear a mask?

Face masks do not have to be worn because: **"I am medically exempt"**.

- infants and children under the age of 12
- anyone who has a medical condition or disability that may be made worse by wearing a mask, including problems with their breathing, a serious skin condition on their face, a mental health condition or experienced trauma
- anyone who is communicating with those who are deaf or hard of hearing, where the ability to see the mouth is essential for communication
- anyone who has past experiences of trauma and is unable to wear a face mask due to psychological impacts
- anyone whose health and safety would be at risk if they wore a face mask while conducting their work, as determined through Occupational Health and Safety guidelines
- prisoners of corrective facilities or detainees in detention centres
- residents of residential aged care facilities or shared disability accommodation services
- anyone who is being married while in the process of being married
- people during an emergency.

Lockups will continue until there is no small business left

The so-called National Cabinet comprising all of the State's Premiers and the Prime Minister will keep planning unnecessary Covid lockups until there is no more small business left in the state and nation.

Queensland ALP Premier Anastacia Palaszczuk

Queensland ALP Health Minister Yvette D'ath

These politicians have conspired to create a Queensland Covid

emergency, at the beginning of the state's school holiday in order to continue the 'state of emergency' provisions under the Health Act which expired on June 30, 2021.

The video explains how the 'emergency' provisions have now been extended until April 30, 2022.

Due to falling national and state numbers of vaccinations the emergency had to be created, to entice hesitant victims into getting a dangerous jab.

Queenslanders can expect many more lock ups between now and 2022 until there are no small businesses remaining in the State. By then, like Pavlov's dog, most of the state's population will be totally conditioned to accept any atrocity committed by the Jewish Premier and her CEO, Dr Jeanette Young CHO.

Dr Young refuses to consider results from the highly inaccurate Covid PCR testing at 40 cycles, which the manufacturers claim can be up to 97 per cent inaccurate, are driving a false plandemic.

No person has died in Queensland for more than a year allegedly due to Covid comorbidities and none of the allegedly infected victims are in intensive care in hospital as of today.

All 42 victims are quarantined in hospital and there is no chance of public cross-infection. Why are we locked up?

‘ Ivermectin, India, Craig Kellys evidence bomb and covidiotis

by [Editor, cairnsnews](#)

Craig Kelly MP, one of the few public political figures in Australia with the courage and intelligence to push the fact that COVID-19 is easily and effectively treated with common medicines like Ivermectin.

By TONY MOBILIFONITIS

As Indian states deploy the cheap and effective anti-viral drug Ivermectin and wipe out COVID-19 infections and deaths, public health officers and premiers in Australia are

persisting with their bogus and diabolical fear-mongering game of case counts and lockdowns.

These bureaucrats and politicians who love the dramatic COVID coverage should wake up and realize the people of Australia are not only sick of it but disgusted by their lying, duplicitous and dictatorial behaviour. The same goes for the big media channels who are part of this charade.

An example of their duplicity is that the same actors refuse to even mention Ivermectin or other inexpensive treatments for their dreaded virus. Oh no, they have billions of dollars invested in vaccines and only vaccines can save us – or so the story goes. But there's also the big problem that most Australians don't want these “jabs” because they offer “occasional prizes” like blood clots and even death. But that was AstraZeneca and they've revised the advice for that one now.

So you might like to try Pfizer-Biontech mRNA vaccine as an alternative? Sorry to inform you but there's another big problem with that one, the horrific threat of accumulation in the ovaries and bone marrow of previously untested “novel lipid reagents” contained in those vaccines. And that's from the inventor of that technology, Dr Robert Malone, [in a series of videos](#). Go to the 3:06 mark on the video link with Dr Malone, Bret Weinstein and Steve

Kirsch. A long version is also available on [TrialSiteNews](#).

In our efforts to reduce Covid-19 severity in the state we shall soon start the prophylaxis treatment with Ivermectin for covid patients who are of the 18+ age group. This will help us in reducing the mortality rate too & speed up the recovery process of patients.

Meanwhile in India at least four states are employing mass dosing of Ivermectin as a prophylaxis (preventative) treatment. Indian data analyst Juan Chamie noted that in the state of Uttarakhand, cases had dropped from 9642 in May to less than 200 now. Fatalities had fallen from 223 a day to only three now. Indonesia has also jumped on the Ivermectin bandwagon for mass treatment, while Singapore has dropped all public announcements about “cases” except those that end up in hospitals.

Also fighting for the cause of Ivermectin is the Indian Bar Association, which launched a lawsuit against WHO chief scientist Dr Soumya Swaminathan, accusing her in a 71-point brief of causing the deaths of Indian citizens by

misleading them about Ivermectin. The same charge should be brought against Australian health authorities for banning hydroxychloroquine.

Contrast this to the [pathetic behaviour](#) in Parliament House last February of senior Labor Party politician Tanya Plibersek, who tried to big-note herself in front of her media fans by publicly “outing” Craig Kelly for advocating Ivermectin to treat the Wuhan Lab virus.

Plibersek told Kelly she wanted Scott Morrison to intervene to “stop you spreading crazy conspiracy theories” about Ivermectin. Kelly quickly countered and told the clueless Plibersek in earshot of her media entourage, that she should take heed of the views of Professor Robert Clancy, an emeritus professor in the School of Biomedical Sciences and Pharmacy at Newcastle University, who also advocated Ivermectin and backed Kelly's stand. Plibersek didn't know how to respond, going all awkward and forcing a look of incredulity as if Kelly was telling her about the tooth fairy. She then turned to “serious” mode, saying “My mum lives in your electorate and I don't want her exposed to people who are not going to be vaccinated because of these crazy conspiracy theories that you're spreading.”

This MP, who has held five ministerial positions, actually believed that Craig Kelly was spreading a conspiracy theory by

sharing data and medical support for a medicine that effectively treated COVID-19. Plibersek, like so many naive people who develop their worldview from TV news, had swallowed the repeated narrative that “only a vaccine can save us”. She was a real-life victim of brainwashing and psychological warfare.

But Kelly “had his day” in a [recent Parliamentary sitting](#). The independent Member for Hughes took to the floor to give a science lesson to group-think party politicians and the Press Gallery drones who attacked him for promoting Ivermectin as a treatment for COVID-19. Kelly cited the multiple peer reviewed trials and studies showing the dramatic effects of the common Ivermectin on COVID-19 infections – information that has been around since the second half of 2020 when doctors and researchers in a group called Frontline COVID-19 Critical Care Alliance. Kelly's stand for truth has cost him all the political security, perks and promotions of his previous Parliamentary Liberal Party membership. But Kelly has gained instead the respect of millions of Australians who can see through this diabolical COVID “health emergency” charade, that is being driven by malignant forces pulling strings within the health bureaucracy, the premiers and prime ministerial departments and from without by the global health mafia. This rot has to end, or Australia is in truly dire straits.
