GOLDEN TICKET, OR POISONED CHALICE?

Source:

<https://www.advocateme.com.au/post/golden-ticket-or-poisoned-chalice>

A 6 minute read by Sandy Barrett

Our political leaders have adopted the mantra that *mass vaccination is the only way to reopen the country*. From this mantra our leaders and their agents have successfully compelled large groups of the population to get vaccinated. As of today, official data claims that 59.1% have had their first dose and 35.5% both doses.

Australia has largely embraced vaccinations over the years, and most consider them safe and effective. So, it was surprising that many were hesitant to roll up their sleeves for covid-19 vaccines when it became available. A widely circulated survey from 2020, completed by hundreds of thousands of Australians, indicated the reason for hesitancy was the fact that they were new and largely untested.

Those who took a closer look at these “vaccines” found even more reason to be apprehensive, because they didn't seem to fall under the traditional definition of what a vaccine is. Historically, vaccines contain a small amount of the virus in question, so the immune system can mount its own defence to the disease. But this new group of vaccines does not work in this way.

The technology being used is as novel as covid-19 itself and is previously untested on humans. Prior to this, tests on animals resulted in complications that ended in death when those vaccinated animals were exposed to the live virus.

For those reasons alone, most can understand the hesitancy, however another reason a growing number of Australians remain hesitant is the secrecy - despite their claims of transparency - surrounding National Cabinet meetings, and the contracts between the Commonwealth government and the vaccine manufacturers.

If the decisions being made were in the best interests of the public, decisions which strip us of our freedom and cause untold social and economic damage to society, why are we not privy to them? This lack of transparency around what are life and death decisions for the health and wellbeing of the population should be a major concern to us all.

For those who don't already know,

[Pfizer has a dubious history](#) and in 2009 the company was fined \$2.3 billion in a legal settlement over misleading marketing practices. Since the year 2000, according to Violation Tracker, Pfizer has accumulated \$4,660,896,333 in fines for:-

- Off-label or unapproved promotion of medical products
- False Claims Act and related infringements / offenses / charges
- Drug or medical equipment safety violation
- Foreign Corrupt Practices Acts violations
- Environmental violation

Johnson & Johnson are not far behind Pfizer, being fined \$4,248,447,763 for offences such as:-

- Off-label or unapproved promotion of medical products
- False Claims Act and related offenses
- Drug or medical equipment safety violation
- Foreign Corrupt Practices Act violations
- Price-fixing or anti-competitive practices

AstraZeneca are not much better either, being fined only \$1,148,775,284, guilty of offences relating to:-

- Off-label or unapproved promotion of medical products
- False Claims Act and related offenses
- Kickbacks and bribery
- Consumer protection violation
- Employment discrimination

Regardless of the questionable business practices of these pharmaceutical giants, our government, in its infinite wisdom, decided it was necessary to:-

- undertake secret deals with corporations that have criminal records, for medical products without the normal rigorous due process of approvals, including adequate and independent safety studies,
- use tax-payer funds to pay for them, including promoting their safety and effectiveness, when that is clearly false and misleading,
- have AHPRA, the medical watchdog, dictate to doctors, nurses and pharmacists announcing that they will [face harsh penalties](#), including being stripped of their ability to practice, if they “undermine the national vaccination program”,
- bury the “vaccine” related deaths and injuries being reported, calling them “coincidental”,
- grant these pharmaceutical companies legal indemnity from any harm caused by their experimental vaccines

Our government has granted these criminal organisations legal indemnity from any harm caused by their experimental vaccines, so in the event that a person decides to sue for damage and loss, the government assumes the position of the company being sued in costly Court proceedings. So when a damaged person is awarded damages our taxes, not the relevant pharmaceutical company's vast profits, will be depleted. Hardly the act of a government with its constituents' interests considered in any way.

Now the government has introduced a “No Fault COVID-19 Indemnity Scheme”, which could be interpreted as hush money, attempting to circumvent Court proceedings, and silence the victims. Given how most reported deaths - 495 up to 29/8, of which 486 are considered "coincidental"- it is understandable why some may conclude that this scheme is a sham.

Our government has consistently marketed these pharmaceutical products to its citizens as safe and effective, but given their manufacturers' criminal histories of safety violations, false claims and bribery, **we have every right to be concerned.**

They cannot hide the truth any longer; because everyone knows these experimental vaccines do not stop you from getting the virus, and

spreading it, and those fully vaccinated are still subject to the public health orders restricting their freedoms, the same restrictions on the freedoms of the unvaccinated. So what benefits are the vaccinated enjoying?

Side-effects are NOT as rare as one-in-a-million. TGA statistics show the reality: side-effects reported are 2.9 per 1000. It is now more common for us to know more people injured by their 'cure' than the virus itself, highlighting their false and misleading safety claims.

And Pfizer is making a killing. Pun intended. According to Nasdaq, they made \$18.98 billion in the second quarter of 2021. The vaccine is clearly contributing to their massive wealth, but you should also know stocks in their anti-blood clotting drug Eliquis rose 13%; and Vyndaquel, their cardiomyopathy drug, rose 77%. According to the TGA, cardiomyopathy and blood clotting are known side-effects of their experimental vaccine.

If you follow the money trail further, you will find that former Treasurer Peter Costello, now chairman of Nine Entertainment (which included newspapers Sydney Morning Herald and The Sun), is also [chairman of the Board of Guardians of the Future Fund](#), an Australian government investment fund.

This fund has more than \$2 billion-worth of shares in

manufacturers of vaccines and pharmaceuticals, including Pfizer, Johnson and Johnson, Merck, Novartis and CSL. And during our covid-19 state of emergency, the funds' investments into vaccine and pharma manufacturing increased from \$1.7 billion to \$2.5 billion. Would it be out of line to ask whether there might be some insider trading going on here? Some conflicts of interest?

Speaking of coincidences, this fund was established in 2015, the same year the Biosecurity Act was created.

With the NSW Police Commissioner receiving handsome pay rises in the past year, equating to \$87,000, in spite the NSW government's 12 month pay freeze, this commissioner is now paid \$665k per year, which is more than the Prime Minister, and the President of the United States of America. With such an expensive police force, it's no wonder Australian Defence Force have been brought in to assist NSW in managing their lockdown.

Considering all this, watching the NSW Minister for Health, [Brad Hazzard, speak about rounding up 24,000 children at Qudos Bank Arena for mass vaccination](#), felt like watching a Stephen King horror movie.

Twenty-four thousand children were targeted in a mass vaccination campaign, under police guard, with no parents allowed inside. To lure them there, Hazzard's use of coercive

language was on show, likening their access to the vaccine as having a “golden ticket”, which sounded like the sort of thing a pedophile would say to entice a child into their grasp.

Given the age group, which has had no deaths from covid-19, I surely thought no parent in their right mind would submit their child to an experimental medical procedure, with known side-effects, especially when they would derive zero benefit. Rather the opposite, it turns out!

Since when has it been a public health initiative to potentially sacrifice the health of the young, in the deliberately misleading and disingenuous hope it might protect the elderly? [Kids got injured in the process](#), not that we heard anything about it from the mainstream media. Considering former treasurer Peter Costello's ties to the Liberal Party, the Future Fund and mostly particularly his mainstream media connection to Nine Entertainment, it doesn't take an “expert” to see why we are still being kept in the dark.

All things considered; can one be blamed for concluding that the “golden ticket” is the reward promised only to the Guardians of the Future Fund: our politicians, bureaucrats and police, who are faring well with their secure jobs and pay rises, meanwhile leaving the vaccinated with the “poisoned chalice” of potential damage from the untested “vaccinations” and the

added insult of having to pay for them, whilst the perpetrators and enforcers of this criminal cartel get off scot free?

Mark Latham has been the state leader of One Nation in New South Wales since November 2018, and was a previous leader of the Labor Party in December 2003. Mark comments on the pending covid passport legality, government bullying of the people and much more.

Mark quotes the Australian Human Rights Commission. “Vaccine Passports operate as a defacto ID card because a person’s identify must be verified against the proof of vaccination”.

Mark Latham urges us to do as he has done by go to the website of the Australian Immunisation Register (AIR) and fill in the form titled “Ceasing Correspondence and Release of Information IM017” and lodge the form with the federal government (see the article below for details and internet links to the fillable PDF from.)

Mark Latham said that once the form is filled in and lodged with the Commonwealth one has the legal right under the laws of the Commonwealth not to have any third party access their vaccination status. Not even your doctor.

If confronted by police or anyone demanding to see proof of their vaccination status can lawfully respond.

“Well no, I have a legal right under the Commonwealth law, which overrides any State Government law, (or directive) not to show anyone. My vaccination status is private, health sensitive information that does not have to be shared.”

COVID JUST INFUENZA A and B DR DEREK STRAUSS

by [Editor, cairnsnews](#)
from Great reject

A clinical scientist and immunologist-virologist at a southern California laboratory says he and colleagues from 7 universities are suing the CDC for massive fraud. The reason: **not one** of 1500 samples of people tested "positive" could find Covid-19. ALL people were simply found to have Influenza A, and to a lesser extent Influenza B. This is consistent with the previous findings of other scientists, which we have reported on several times.

Dr. Derek Knauss: "When my lab team and I subjected the 1500 supposedly positive Covid-19 samples to Koch's postulates and put them under an SEM (electron microscope), we found NO Covid in all 1500 samples. We found that all 1500 samples were primarily Influenza A, and some Influenza B, but no cases of Covid. We did not use the bulls*** PCR test."

At 7 universities not once COVID detected

'When we sent the rest of the samples to Stanford, Cornell, and a couple of the labs at the University of California, they came up with the same result: NO COVID. They found Influenza A and B. Then we all asked the CDC for viable samples of Covid. The CDC said they can't give them, because they don't

have those samples.'

'So we came to the hard conclusion through all our research and lab work that Covid-19 was imaginary and fictitious. The flu was only called 'Covid,' and most of the 225,000 deaths were from co-morbidities such as heart disease, cancer, diabetes, pulmonary emphysema, etc.. They got the flu which further weakened their immune systems, and they died.'

'This virus is fictitious'

'I still need to find one viable sample with Covid-19 to work with. We who conducted the lab test with these 1500 samples at the 7 universities are now suing the CDC for Covid-19 fraud. The CDC still has not sent us a viable, isolated and purified sample of Covid-19. If they can't or won't, then I say there is no Covid-19. It's fictional.'

'The four research papers describing the genome extracts of the Covid-19 virus never managed to isolate and purify the samples. All four papers describe only small pieces of RNA that are only 37 to 40 base pairs long. That is NOT a VIRUS. A viral genome normally has 30,000 to 40,000 base pairs.'

'Now that Covid-19 is supposedly so bad everywhere, how come not one lab in the world has completely isolated and purified this virus? That's because they never really found the virus. All they ever discovered were small pieces of RNA that were not identified as the virus anyway. So what we're dealing with is just another flu strain, just like every year. **Covid-19 does not exist and is fictitious.'**

'I believe that China and the globalists have set up this Covid hoax (the flu disguised as a new virus) to establish a global tyranny and

totalitarian control police state. This intrigue included (also) massive election fraud to overthrow Trump.'

CDC itself admits to having no identifiable virus

Deeply hidden in an [official document on Covid-19](#), the CDC ruefully admitted as early as summer 2020 that it **does not have a measurable virus**: 'As no quantified (= measured) isolated virus objects of 2019-nCoV are available at this time...' (*page 39 of the 'CDC 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel' (July 13)*)

In other words, the CDC, as one of THE leading medical authorities in the world, could not, and **still cannot**, demonstrate a virus.

About the still shamelessly abused PCR test, the CDC wrote under the heading 'limitations': '**The detection of viral RNA cannot demonstrate the presence of an infectious virus, or that 2019-nCoV is the causative agent of clinical symptoms.**' And in addition: 'This test cannot exclude other diseases caused by other bacterial or viral pathogens.'

In other words, we cannot prove that the people who get sick and are hospitalized, and very occasionally die, were sickened by a new coronavirus called SARS-CoV-2, nor can we prove that it caused them to develop a new disease called 'Covid-19.' It could just as easily be a different virus and a different disease. (And since all the symptoms, including severe pneumonia, correspond seamlessly to what flu can cause historically in vulnerable

people... 'if it looks like a duck and walks like a duck, it is a duck'.

Reward of \$265,000 for demonstrating coronavirus

Earlier this year, Samuel Eckert's German Team and the Isolate Truth Fund pledged a reward of at least \$265,000 for any scientist who can provide incontrovertible proof that the SARS-CoV-2 virus has been isolated and therefore exists. They too pointed out that not one lab in the world has yet been able to isolate this corona virus.

Yes, systems scientists claim they have, but this 'isolation' consists only of a sample from the human body, which is a 'soup' full of different kinds of cells, remains of viruses, bacteria, et cetera. With the help of (toxic) chemicals one then searches for some (residual) particles that may indicate a virus that once existed or may still exist, after which this is designated as 'evidence'.

Canadian team also received no evidence despite 40 Public Access Law requests

A team around Canadian investigative journalist Christine Massey submitted no less than 40 Public Access Law [requests](#) with the simple request for proof that the SARS-CoV-2 virus has been isolated and its existence can therefore be objectively proven. Not one of the agencies and authorities written to was able to provide that evidence...
