# Vaccination and the Media – conflicts of interest in Australia

– [MAR 17](#) Posted by [Editor, cairnsnews](#) by *Diane Drayton Buckland*

Former Liberal Federal Treasurer Peter Costello is Chairman of an Australian Government Investment Fund which includes over a billion dollars' worth of vaccine company shares, while he also chairs a media company which publishes articles demeaning and marginalising people who question the ever-increasing number of lucrative vaccine products being added to the vaccination schedule. There's a murky story to uncover about relationships between the media and vaccine industry...and connections with government. <https://tinyurl.com/mr3brakd>

Note that mainstream media in Australia has massive conflicts of interest The entire Australian Government Vaccination Policy is totally corrupted with systemic and widespread conflicts of interest (and there has never been any Independent Regulator to oversee or put a stop to these shocking situations which is and has always put entire populations in harm's way.)

This Investigative Research is as per the work of Independent Investigators/Researchers Dr. Judy Wilyman and Elizabeth Hart and others and what they have discovered is absolutely disgusting and dangerous.

The article hereunder is another example of the crimes against the people of Australia by Government, with mainstream medicine, mainstream media and the Pharmaceutical Industry and their superglued ties /partnerships /members /revolving doors to State and Federal Governments in Australia.

## George Soros: United States, European Union Must Remove Putin And Xi From Power 'Before They Can Destroy Our Civilization'

Source:

<https://www.thegatewaypundit.com/2022/03/george-soros-united-states-european-union-must-remove-putin-xi-power-can-destroy-civilization/>

The 89-year-old philanthropist said on the sidelines of the World

Economic Forum in Davos, Switzerland, on January 23 that the effort will be the "most important and most enduring project of my life."

"We live at a transformational moment in history. The survival of open societies is endangered and we face an even greater crisis: climate change," the Hungarian-born billionaire said.

Soros expressed sadness that the world's biggest powers -- the United

States, China, and Russia under President Vladimir Putin -- were "in the hands of would-be or actual dictators, and the ranks of authoritarian rulers continued to grow."

## BioClandestine <https://t.me/bioclandestine/123>

“Soros is publicly coming out and saying Xi, Putin and Trump need to be stopped in order to save civilization. That's rather rich from the man who is admitted trying to destroy civilization.

This is all the confirmation I need that Xi, Putin and Trump are in ongoing special operations to expose and prosecute the deep state. And based on the mass panic from the deep state, it appears we are directly over the target. The Ukrainian US biolab activity is the entry point to investigating all US biolab activity, and discovering C19 was created and released intentionally.

If I am Russia, there is one super easy way to solve this issue and force a neutral party investigation from the UN: Agree to cease fire, if the UN agrees to enact Articles 5 and 6 of the the International Biological Convention to investigate the allegations of biological weapon production by the US.

The US would be put between a rock and a hard place. If they accept, they know what the investigation will lead to, and those responsible are subject to capital punishment a la DEATH. If they don't accept, then they are proving they have something to hide and are willing to let war continue.

Obviously the deep state do not care about innocent life, and not saying Putin is a saint in all this, but **these labs are creating genome specific bioweapons designed to target and wipe out the Russian population.** This is a direct threat to Russian National Security and dictates the proper response from Putin to protect his people from ANOTHER biological weapon of mass destruction. As if C19 wasn't enough.

If Russia was creating genome specific DNA hunting bioweapons at our border, the US MIL would be raining hell the likes of which the world has never seen. “...“Do you have any idea how massive that just was? Of course the US and other deep state controlled nations would deny everything, because they are implicated in crimes with the ultimate consequences.

What we did accomplish, is on the highest diplomatic channel on the planet, Russia presenting their case, and China, Brazil, Mexico, India, Gabon, calling for a cease fire and investigation immediately. ... Look at the big picture and look at the population of the countries calling for an investigation. China: 1.4 billion ; India: 1.3 billion; Brazil: 212 million; Russia: 144 million; Mexico: 128 million & Gabon: 2 million

That's 3.2 BILLION people. Representatives for nearly half of the world population are calling for an investigation into the United States for bioweapons production. This is as good as we could have hoped for.

This is just the beginning. There is much more to come. These UN talks will continue. More deliberation will be had and there will be mountains of more denial from the US.
