Understanding Preferential voting in Australia and how to vote to get rid of Liberal, Labor and Greens

MAY 12 Posted by [Editor, cairnsnews](#)

<https://cairnsnews.org/2022/05/12/how-to-vote-and-get-rid-of-liberal-labor-and-greens/>

This video shows how the Australia's preferential voting system works. Note; the Liberal-Labor duopoly system is based on creating fear in the community that the other mob would be worse. Political outcomes are only considered as either of the two preferred parties. This strategy is supported by the MSM (main stream media).

MSM consistently presents a hung parliament, with minor parties holding the balance of power, as terrible and unstable outcome. This is their designated role to preserve the duopoly.

A more targeted strategy is PESML - Put Every Sitting Member LAST!

<https://youtu.be/xtx-6laBPNl>

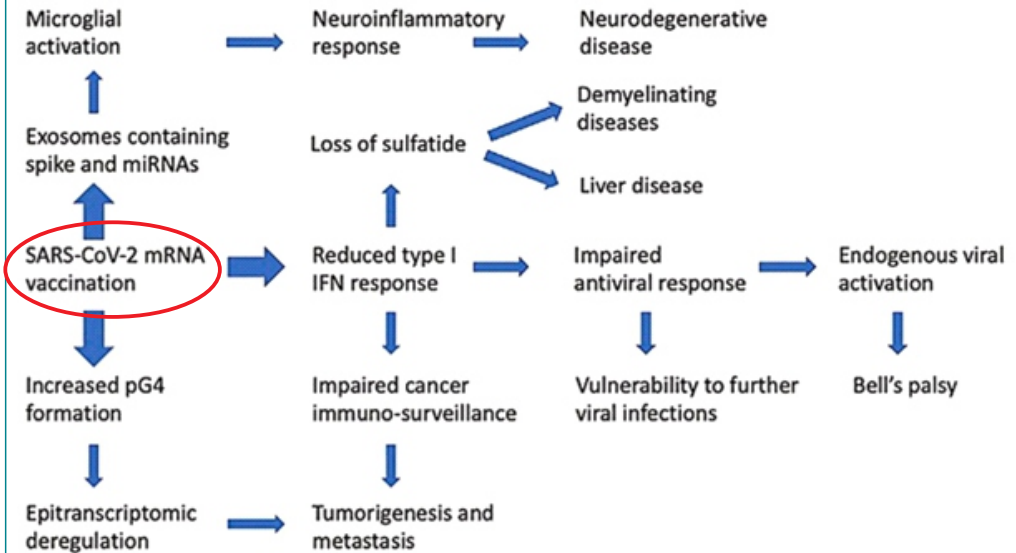

This short video describes the single greatest strategy available to Australian voters who are keen on holding the political class accountable for the many human rights and freedom violations over the course of the last two years. (PESML mainly applies to House of Representatives)

Innate immune suppression by SARS-CoV-2 mRNA vaccinations.

Source: <https://t.me/c/1534276437/72684>

This review paper by Seneff et al. (2022

<https://www.sciencedirect.com/science/article/pii/S027869152200206X?via%3Dihub>)) summarises the current literature on mRNA and its effects on the molecular biology within human cells. The findings are shocking.

mRNA vaccines promote sustained synthesis of the SARS-CoV-2 spike protein.

- 🔔 The spike protein is neurotoxic, and it impairs DNA repair mechanisms.
- 🔔 Suppression of type I interferon responses results in impaired innate immunity.
- 🔔 The mRNA vaccines potentially cause increased risk to infectious diseases and cancer.
- 🔔 Codon optimization results in G-rich mRNA that has unpredictable complex effects.

The authors conclude that "billions of lives are potentially at risk, given the large number of individuals injected with the [...] mRNA vaccines [...]. We call on the public health institutions to demonstrate, with evidence, why the issues discussed in this paper are not relevant to public health, or to acknowledge that they are and to act accordingly." @Goddek
