# WHA and UN hitting roadblocks over planned health takeover of member nations

Source: <https://tinyurl.com/bdfzdzne>

Editor, cairnsnews May 30

**Australia a vocal supporter, no back down from our delegates**

by Stephen Andrew, MP, Mirani, May 30, 2022

## Brilliant news out of Geneva today!

As most of you know, the World Health Assembly has spent the past 7 days considering Biden's 13 controversial amendments to the **International Health Regulations**.

Official delegates from wealthy developed nations like Australia, the UK, and the US spoke in strong support of the amendments and urged other states to join them in signing away their countries' sovereignty.

*One Nation MP Stephen Andrew leads the way in Qld Parliament exposing the attempted UN takeover of Australian sovereignty*

The first sign, however, that things might not be going the globalists' way, came on Wednesday, the 25th of May, which just happened to also be Africa Day.

Botswana read a statement on behalf of its 47 AFRO members, saying they would be collectively withholding their support for the 'reforms', which many African members were very concerned about.

Multiple other countries also said they had reservations over the changes and would not be supporting them either.

These included Brazil, Russia, India, China, South Africa, Iran and Malaysia. Brazil in particular said it would exit WHO altogether, rather than allow its population to be made subject to the new amendments.

In the end, the WHO and its wealthy nation supporters were forced to back down.

They have not given up though – far from it. Instead, they did what they always do and 'pivoted'.

At their request, a new working group was convened to make "technical recommendations on the proposed amendments" which will be re-submitted along with the Pandemic Treaty, at the 77th Health Assembly meeting in 2024.

There has also been lots of pushback from Republicans in the US, with a number of them introducing new bills giving the US Congress/Senate powers to override any WHO mandates or directives issued as part of any international agreements.

One, called the 'No WHO Pandemic Preparedness Treaty Without Senate Approval Act' has 15 co-sponsors and was introduced to the Senate on Thursday by Republican Senator Ron Johnson, who said "The sovereignty of the United States is not negotiable".

Here in Australia, we need to keep the pressure up on our own parliaments, both Federal AND State, up the ante, and don't ever look sideways.

Just brace for the digital ID now, and as the Federal Parliament reboots we need to push back at all costs on that from this week moving forwards.

I urge everyone who has not already done so, to sign and share my Queensland Parliament Petition on the IHR Amendments and Pandemic Treaty (link below).

## **Covid Medical Network letter is indictment of medical authorities**

[MAY 29](#) Posted by [Editor, cairnsnews](#)

### **Letter to the Editor**

Dear Australian Community

In the midst of your grief and sorrow and utter exhaustion from the devastating effects of the unnatural catastrophic weather events we have just been subjected to, we ask that you pause for 15 minutes to read and digest this message and linked letter and take action.

This letter exposes the COVID-19 and "vaccine" mandate Fraud and serves as an indictment of Australia's purported health leaders, those men and women who were and are meant to guide all Australians in living the healthiest life possible ... a mission they have failed to perform for over two years now.

It is a stunning document we ardently request you share everywhere, so our Australian Community can learn and confirm the facts many have come to know or suspect, while gaining strength in the knowledge that hundreds of Australia's leading doctors, scientists, and academics have also had enough and are fed-up!

North Coast NSW, Australia, barrister Julian Gillespie is a co-author and signatory to this 52-page Letter, with hundreds of pages of supporting evidence, in collaboration with the Australian Covid Medical Network.

Here is the letter:

<https://www.covidmedicalnetwork.com/open-letters/open-letter-to-atagi.aspx> or <https://tinyurl.com/y2h7mj9u>

It comes from the combined effort of Australia's leading clinical doctors, scientists, research academics, health care professionals, overseas specialists, and lawyers working together over many months.

The material presented has been 'fact checked' by the vigorous peer-review process to present the Truth.

This Letter has also been received by every Federal, State, and Territory MP and Senator, in order to inform them of a variety of scientific Truths being flagrantly ignored by both these health 'leaders', and the Ministers responsible for overseeing their conduct.

We urge you to please take a small amount of time out of your demanding day to call and email your Federal and State/Territory representatives and get them to ask the same Questions, and Demand the same Answers you will see in the Letter.

Armed now with the facts, the history, and the evidence of a litany of wilful instances of malfeasance, it is now time for the wider Community to say 'enough is enough' and call an end to all "vaccine" mandates and false COVID narratives.

We need our doctors, nurses, teachers, lawyers, transport industry, farmers, military, police, religious leaders, government employees, corporations, business people, ordinary workers, and everyday community members – vaxxed and unvaxxed – to stand together and demand an end to all COVID "vaccine" mandates, ban any further rollout of this experimental gene-based treatment, and demand a full and transparent public enquiry.

Australia's future is in our own hands. What you and I do right now, today, will determine what kind of world we end up living in, and the world our children and grandchildren inherit.

They are trying to divide and conquer us, and silence all opposition. Already, planned protests in all capital cities are being impacted as millions of people struggle with the utter devastation caused by these incredibly harmful and destructive weather events being rolled out across the East Coast of Australia.

Please understand the gravity of the situation we are currently facing and take action NOW. Thank you and may the Divine Creator's Light and Love be with us all at this dark and challenging time for humanity.

# Open Letter to Atagi, TGA and Federal Health Department

Open letter addressed to A/Prof Crawford, Dr Murphy, Prof Kelly, Prof Skerritt,  
Hon Minister Hunt, members of ATAGI and ACV

## Withdraw the experimental gene-based treatment to the general public and especially children

Tuesday 8th March 2022

**We, the Covid Medical Network and co-signatories, are writing to you to follow up on prior correspondence to ATAGI, the TGA and the Health Minister, and FOIA requests to the TGA, where answers have either been not forthcoming or have indicated the TGA has lacked critical information for making its provisional approval of the gene-based vaccines, namely Pfizer's BNT162b2 & Comirnaty, AstraZeneca's ChAdOx1-S and Moderna's Spikevax/mRNA-1273.**

This letter pertains to:

- Correspondence you and the TGA received that the Pfizer (and AstraZeneca and Moderna) data via the companies themselves or via the FDA was likely too limited in scope to make a proper determination of safety and efficacy.
- FOIA requests to the TGA with respect to reproductive toxicology issues that have been responded to late and with heavily redacted documents.
- FOIA request with respect to micro-RNA sequences and related molecular genetic issues as to whether the TGA had assessed these.
- Peer-reviewed published in vitro research that gene-based vaccine generated spike proteins can migrate into human cell nuclei to disrupt DNA repair mechanisms, and vaccine-derived RNA can be reverse transcribed with evidence pointing to possible integration of this sequence into human genome.
- That a release of some Pfizer data from a FOIA request to the FDA in the US indicated high adverse events reporting by 28 February 2021.
- Analysis of the TGA's own Database of Adverse Events Notifications (DAEN) data and what Australian clinicians are increasingly witnessing as a high rate of injuries from these gene-based vaccines.
