Just ONE known unvaccinated person hospitalized in NSW during week to May 28.

[Daniel Horowitz](#) June 03, 2022

Source: <https://www.conservativereview.com/horowitz-covid-hospitalizations-australia-2657453020.html> or <https://tinyurl.com/2b83w6ww>

When we started to see the [negative efficacy](#) of the shots late last summer [in USA], we thought that by now the vaccines would have been pulled from the market. Yet to this very day, they are still being mandated in the military and in other settings, and now the FDA is on the cusp of approving them for babies and toddlers. But one thing we don't hear any more is the incessant posturing of the government-pharma complex about how all the unvaccinated are filling up the hospitals. You know why? Because just the opposite is true. Yet the policies do not change based on the facts on the ground.

Australia, like other countries, publishes a COVID surveillance report every week. But until now, we weren't able to effectively use it to monitor hospitalization rates by vaccination status because the reports conflated the unvaxxed with the "unknown" category. Well, now the two have been decoupled, and we can see a crystal-clear picture of who is being hospitalized with COVID. Here link to table 1 of the [New South Wales COVID-19 Weekly Data Overview](#) for the week ending May 28: *Below excerpt from Table 1. Showing number of people with a COVI-19 diagnosis in the previous 14 days who were admitted to hospital, admitted to ICU or reported as having died in the week ending 28 May 2022.*

	Admitted to hospital (but not to ICU)	Admitted to ICU	Deaths
Gender			
Female	247	12	44
Male	227	29	54
Vaccination status			
Four or more doses	46	3	6
Three doses	210	18	58
Two doses	87	7	17
One dose	9	0	1
No dose	1	2	14
Unknown*	121	11	2
Total	474	41	98

As you can see, [after subtracting the 121 Unknown from the total,] just one out of the 353 new hospitalizations over the preceding 14 days in Australia's largest state was unvaccinated, where the patient's vaccination status was known. Shockingly, 72.5% of the hospitalizations were among those with three or more shots. Again, we've seen the negative efficacy for contracting COVID for months, but we were told the protection against serious illness was still robust. According to these numbers, there does not appear to be any benefit, especially for the elderly people who need that protection the most. Moreover, 64 of the 96 new COVID deaths where the vaccination status was known were among those with three or more shots. Without age-stratified rates, we cannot conclusively prove negative efficacy against serious illness just from this data alone, but what is clear is that vaccination does not offer much protection, if any, and that's before factoring in all of the risks and side effects.

Also, remember, Omicron variants aren't nearly as bad as Delta and some of the other more pathogenic versions that replicated aggressively in the lower respiratory system. The fact that Australia is experiencing more deaths post-boosters and with the least pathogenic version is very disturbing.

Something is not right about this picture. Australia is experiencing nearly all its deaths after endless boosters and Pfizer's supposed wonder drug are available and with the least pathogenic variant. Roughly three-quarters of the country's COVID deaths occurred since Omicron predominated in December and after boosters were in ubiquitous use, especially among the most vulnerable. *Link to original report:* <https://tinyurl.com/2b83w6wv>

Israeli Messianic believers celebrate Shavuot together for first time in 3 years

By [Tuvia Pollack](#) - Jun 8, 2022

Hundreds of Messianic believers in Yeshua gathered from all over Israel on

Sunday to celebrate the Jewish holiday of Shavuot (Feast of Weeks or Pentecost) at the [Yad HaShmona](#) communal village, located in the picturesque hills surrounding Jerusalem.

The annual event is organized by the [Messianic Jewish Alliance of Israel \(MJAI\)](#) and continues to be the largest gathering of local believers in Israel since it began in 1988. This year's gathering was the first one since the spring of 2019 due to the COVID pandemic and government restrictions which prevented larger gatherings of 50 or more people.

At the conference, there was an area for attendees to purchase books printed by [The Bible Society in Israel](#), [HaGefenPublishing](#), [Caspari Center](#), and of course, the event coordinators at MJAI.

Russia BANS All LGBT Propaganda as New Traditionalist World RISES!!!

The Russian Federation is banning all LGBT Propaganda as a New Traditionalist World RISES! Russian lawmakers also propose a 10 Million Ruble (~250,000 AUD) fine for LGBT Propaganda. Foreigners promoting such propaganda would be deported and never be

allowed to return to Russia. A number of other nations including Hungary whose anti-LGBT law goes into effect despite EU warnings. Russia's policy is Re-traditionalisation and is coupled to what is called a Civilisation State, which identifies with a common culture and philosophy. This is directly opposed to Globalism.
