MESSAGE TO THE UNVACCINATED

"Even if I were pollinated and fully vaccinated, I would admire the unvaccinated for withstanding the greatest pressure I have ever seen, even from partners, parents, children, friends, colleagues, and doctors.

People who were capable of such personality, courage and critical ability are undoubtedly the best of humanity. They are everywhere, in all ages, levels of education, states and conceptions. They are of a special kind; they are the soldiers that every army of light wants to have in its ranks. They are the parents that every child wants to have and the children that every parent dreams of having. They are beings above the average of their societies, they are the essence of the people who have built all cultures and conquered horizons. They are there, next to you, they look normal, but they are superheroes.

They did what others could not, they were the tree that withstood the hurricane of insults, discrimination and social exclusion. And they did it because they thought they were alone, and believed they were the only ones.

Banned from their families' tables at Christmas, they never saw anything so cruel. They lost their jobs, let their careers sink, had no more money ... but they didn't care. They suffered immeasurable discrimination, denunciation, betrayal and humiliation ... but they kept going.

Never before in humanity has there been such a "casting", now we know who are the best on planet Earth. Women, men, old, young, rich, poor, of all races or religions, the unvaccinated, the chosen of the invisible ark, the only ones who managed to resist when everything collapsed.

That's you, you passed an unimaginable test that many of the toughest Marines, Commandos, Green Berets, astronauts and geniuses could not withstand.

You are made of the stuff of the greatest that ever lived, those heroes born among ordinary people who glow in the dark."

Are these prominent Australians supporting Klaus Schwab's global digital prison?

PATRIOTIC, freedom-loving Aussies have some questions for the swag of politicians and public figures who have direct and indirect associations with the World Economic Forum.

Some are:

- Greens Senator Sarah Hanson-Young, WEF Young Global Leader (2021)
- Liberal Senator Andrew Bragg, NSW, (YGL 2021)
- Clare O'Neill, Victorian Federal Labor MP for Hotham, member of Emily's List Australia, a political network that supports "progressive" female candidates for election. (YGL 2019)
- Former Human Rights Commissioner Edward Santow, WEF YGL and Fabian Society member (perfect match!)
- Movie actress/singer Jessica Mauboy (YGL 2021)
- Future Super executives Simon Sheikh and Geraldine Chin Moody, YGLs actively supporting WEF aims and objectives under banner of so-called "ethical investment"
- Sally Capp, Lord Mayor of "global city" Melbourne, senior roles in WEF partner KPMG
- Diane Currie, chief planner, City of Brisbane, member WEF Forum on Future Cities Tomorrow and UN Habit Advisory Committee.

The questions: Do you back the World Economic Forum in their plan to use AI technology to [cancel so-called misinformation](#) on the internet? Do you support the use of facial recognition technology to surveil Australians? Do you support the so-called digital ID system and the abolition of cash? Do you support the WEF's so-called great reset system where people "[own nothing and will be happy](#)"?

Perhaps you can put to rest, Senators and others, the strong suspicion among many Australians that the WEF's [Young Global Leaders](#) are pushing the WEF's so-called Great Reset agenda which will essentially make private property illegal and keep the population virtually imprisoned in a digital identity system which controls every aspect of life. You think that's a conspiracy theory, no it's an actual plan put up in plain sight on the WEF's own web pages.

Australians would reasonably suggest that you put those suspicions to rest right now by disassociating yourself from plans to censor free speech and expression on the internet in addition to the diabolical digital identity plan and the endless vaccinations pushed by WEF partners Bill Gates, Pfizer and the WHO.

We know that Senator Bragg chaired of the Senate Select Committee into FinTech and RegTech, joined the class of 2021 Young Global Leaders as did pop singer Jessica Mauboy. What's next Jessica, a run for the Senate or House of Representatives? Nothing like celebrity to propel one into political influence, hey Jess?

We also know that Senator Bragg has been getting lots of emails about his WEF links and the Senator told a journalist he hasn't been able to work out why people have all these concerns about the WEF. After all, it's just a global forum, he said. FYI Senator, the

WEF wants and needs your political influence to push their global agenda on Australia, and their population control agenda is not an acceptable one. Or perhaps Senator, you're prepared to tell the people of NSW that by 2030 they should own nothing, but they will be happy, because Klaus Schwab says so?

The WEF agenda is, of course, right up the alley of The Greens and Senator Hanson-Young has no problem endlessly spouting nonsense about the "climate crisis" and the alleged need for zero net emissions. But even a green leftie should have trouble with AI censorship and a totalitarian agenda, right Senator? So why don't you just come out and support or deny the case for digital ID and China-style facial recognition cameras on every corner?

And then there's the woke corporate crowd like Geraldine Chin Moody who founded the first Global Shapers community in Australia and Simon Sheikh, both pushing the infantile "wind/solar good, coal/oil bad" message on behalf of so-called ethical investment company Future Super. Actually it's worse than that because this company is actively targeting and boycotting any industry or service connected to fossil fuel industry – except of course when they recharge their EVs at night with coal-fired electricity.

We wonder too, if Moody and Sheikh are backing the climate activists who have been attempting to disrupt coal facilities, trains and general road traffic. Attacking the functioning of the day to day economy is economic sabotage and can come under the definition of criminal activity.

Geraldine's husband James Chin Moody is also a Young Global Leader. In 2015 he was a member of the WEF's Global Agenda Council on the Future of Software & Society and co-author of a book: *'The Sixth Wave: How to Succeed in a Resource Limited World'*, published in 2010.

Yes, the WEF even targets the country folk (which might help explain the Nationals' drift to the left). Also Ian Thorpe – Former Olympic swimmer and philanthopist.(YGL 2010)

¹You'll Own Nothing and Be Happy (or You'll Own Nothing and You'll Be Happy) originated from a 2016 essay by Danish MP Ida Auken, which was included in the WEF video “8 Predictions for the World in 2030”. The prediction is based on the WEF idea that all products to become services, but obvious involves abolition of the right to own private property under a communistic system run by an elite.

YESHUA REMEMBRANCE SERVICE

Leader: ³¹ "Here, the days are coming," says Y'HoVaH, "when I will make a new Covenant with the house of Isra'el and with the house of Y'hudah. ³² It will not be like the covenant I made with their fathers on the day I took them by their hand and brought them out of the land of Egypt; because they, for their part violated My Covenant, even though I, for my part, was a husband to them," says Y'HoVaH. ³³ "For this is the Covenant I will make with the house of Israel after those days," says Y'HoVaH, "I will put My Torah within them and write it on their hearts; I will be their Elohim, and they will be My people.
