# Federal Government funding the Australian Future Leaders Program

SEP 1 Posted by [Editor, cairnsnews](#) Letter to the Editor from *Blisskitt*

I believe it is not just our leaders who are crazy, we the people must be to put up with this. I am attaching an article by ABC news I came across, 5 Apr 2022. I guess it is election year so perhaps the MSM may start stirring the pot.

The article refers to funding provided by the government (taxpayer) in this year's budget to the tune of \$18 million, for 5 years commencing from 2021/22, then \$4 million each year after that; awarded to a non-profit organisation (it's a charity!?) registered Apr 2021, known as The Australian Future Leaders Foundation Ltd.

Businessman Chris Hartley listed as director and secretary of the mysterious group

<https://www.abc.net.au/news/2022-04-07/australian-future-leaders-foundation-funding-launch-election/100971170>

The funding is for a program known as the Australian Future Leaders Program. (Anything sounding familiar in all this?) The directors are noted as Chris Hartley, Julie Overton & Andrew Overton. Details of Julie Overton & Andrew Overton from Linked-in I have attached (I believe them to be the correct people identified in the article). Chris Hartley I could not access.

According to the article, the organisation has no office, staff or website. (except the directors listed) There was no tender process and it was given approval as the Governor General endorsed the proposal, in fact, and I quote 'the Governor-General supports the Australian Future Leaders Program and intends to serve as its inaugural Patron.'

Would that be a paying role? I hope not. There is even more in the article. I am thinking further investigation may be warranted.

# Studies Show Fertility Rates Plummet Worldwide Following COVID-19 Vaccines

Posted By *Brian-Admin* On August 30, 2022

A presentation recently made by Dr. Christof Plothe, a German Doctor of Osteopathy who is also a member of the *World Council for Health*, reveals the most startling evidence yet that COVID vaccines are causing massive cases of infertility, not just among women, but men also.

Combined with the record volume of deaths and disabilities among the COVID-19 vaccinated, the future implications of what this vaccine has done to the human population and labor pool, is almost unfathomable.

This information is NOT being reported in the corporate media, and to reference it is to be labeled as someone providing “disinformation” by most.

The presentation was made on the [Iron Will Report](https://healthimpactnews.com/2022/studies-show-fertility-rates-plummet-worldwide-following-covid-19-vaccines/) <sup>[1]</sup>. The video is below. <https://healthimpactnews.com/2022/studies-show-fertility-rates-plummet-worldwide-following-covid-19-vaccines/> or <https://tinyurl.com/yxdtwm33>

Christof Plothe has done an in-depth study on the effects of the Covid 'vaccines' on pregnant women. His findings are truly disturbing. In just one example, the University of Chicago asked for women who had experienced post-injection menstrual irregularities to volunteer for a study. They hoped to find 500 women. To date, they have received over 140,000 applications!

Mr. Plothe's data is shocking. He shares slides of his charts on a wide range of 'vaccine' affects, including drops in fertility around the world, accumulation of lipid nanoparticles and spike proteins in the various organs of the body, and the fact that the risk of miscarriage with the Covid 'vaccines' is over 1500 times higher than with the flu vaccine.

How many safety studies were done on pregnant women? (Spoiler: the answer is 'none')

How many of the 'scientists' involved in Pfizer's safety trial own shares in Pfizer? (Spoiler: the answer is 'all of them')

To what degree have birth rates dropped around the world since the start of the 'vaccine' rollouts?

Why were no human studies done on the effects of the lipid nanoparticles, which are known to be toxic?

The lipid nanoparticles collect in the highest concentration in the reproductive organs. Is this intentional to produce infertility?

What other side effects do the lipid nanoparticles produce?

## Highlights [by Dr. Mark Trozzi](#) <sup>[2]</sup>:

- Pregnancy last 9 months, yet these “vaccines” were approved in just 108 days. How can any claim of safety in pregnancy be made? Normally vaccine approval takes ten years.
- Pregnant women were excluded from clinical trials, yet the injections were declared safe for pregnant women. Based therefore on nothing!
- 270 women did get pregnant during the Pfizer trial; of those 238 were not reported, and only one normal birth was reported.
- Polyethyleneglycol [*PEG*] which is a component of the *pegylated* nanoparticle used to deliver the genetic material into the human cells was known to be a foetal toxin since before covid was launched.
- Moderna and Pfizer-biotech studies on 44 rats for just 42 days demonstrated a doubling of preimplantation loss of pregnancy, and 295% increased rate of birth defects. There was no evaluation of next generation effects, and the researchers were riddled with conflicts of interest that they tried to hide.
- By sept 2021 tens of thousands of menstrual problems in women were reported following the jabs, with heavy bleeding 8000 times normal!
- Japan study of biodistribution showed extensive distribution with profound concentration in women's ovaries.
- Potential mechanisms of fertility harm include *pegylated* nanoparticle toxicity, spike protein [SP] toxicity, immune response to SP, auto-immune attack on SP producing ovaries, and immune attack on an essential reproductive protein syncytin-1 which is structurally similar to SP.
- The injected mRNA persists in most victims for 2 months, and stimulates spike protein production with SP persisting 15 months. SP damages male testes with dramatic reduction in spermatogenesis.
- An Israel study showed sperm count and male fertility decreased with just one shot, then the study was ended. So what happens with repeat doses?
- USA VAERS reveals massive infertility issue reports, accounting for 95% of all infertility reports in the 30 years of reporting for all vaccines combined.
- In comparison with influenza vaccines, these injections have a 1500% higher associated miscarriage rate.
- We need long term controls, but drug companies injected the control subjects after the brief study periods, thus eliminating long term controls. The closest thing we have is the countries where people have best resisted the forced injections.
- Stop the Vaccines. Stop suppressing ivermectin and promote safe covid treatment. Stop the persecution of the doctors who have been scientifically and ethically correct from the beginning. These doctors must be exonerated and returned to serving the people who need us now more than ever.

Presentation ends at 24 min and Will's questions start: Iron Will raises issues of malpractice, intention, misrepresentation, fraud, compromised journals, persecuted good doctors, and the CDC hiding deaths having removed 50,000 deaths from the VAERS data base and reclassifying them.

Dr Plothe reminds us how science really works, and calls to end the suppression and have open forums. “Lets go back to science; today, not tomorrow.”

### **Comment by Dr Trozzi:**

Thanks to Iron Will and Dr Plothe. The reality is tragic; but this interview and content is exceptional. There should be no question about stopping these injections immediately, as well as investigating and prosecuting the many high profiting perpetrators and accomplices to unprecedented crimes against humanity.

Imagine, even at this time, the Universities of Western Ontario and Toronto are demanding that students be injected and subjected to this sterilization, or forfeit their education. Government officials who are mandating this are at war with innocent unsuspecting men, women, and children. Source: <https://tinyurl.com/yxdtwm33>

## **Unvaxxed teachers in Qld about to lose \$90 a week for disobeying mandate**

**Editor, cairnsnews** Sep 1. Source: <https://tinyurl.com/mr3744am>

Socialist Queensland Labor Education Minister Grace Grace is about to punish unvaxxed teachers across the state for refusing the deadly mRNA jab.

The state's Department of Education is finalising disciplinary action against about 900 public schoolteachers, aides, administration staff and cleaners who did not comply with a directive to get vaccinated. There are about 54,000 teachers employed across the state.

“School staff were given ample opportunity to follow the lawful direction or provide evidence as to why they should be exempt from the direction since the vaccination requirements were announced in November 2021,” the department said on Wednesday.

The chancellor of the Australian National University and the former foreign minister, Julie Bishop, said the disciplinary action was “a very harsh outcome”.

“Surely we've moved on from this now,” she told Today.

“I would like to see the medical advice that would support such a penalty being imposed on people who, after all, have made a choice. It is pretty harsh.”
