# The Electric Universe

**Big Bang didn't happen.  
Millions of years unneeded  
for geology of earth.**

## Electric Universe Synopsis

<https://www.thunderbolts.info/wp/about/syn/>

### Introduction

In the wake of recent discoveries, a new way of seeing the physical universe is emerging. The new vantage point emphasizes the role of electricity in space and shows the negligible contribution of gravity in cosmic events.

Images returned by high-powered telescopes and recent space probes have challenged astronomers' long-standing assumptions about galaxies and their constituent stars, about the evolution of our solar system, and about the nature and history of Earth.

The new discoveries also suggest that our early ancestors may have witnessed awe inspiring electrical events in the heavens—the source of myths and symbols around the world.

### Cosmology

Today, magnetic fields are detected

everywhere, even in the “empty” depths of intergalactic space. Magnetic fields cannot exist without causative electric currents. The naked electric force is 39 orders of magnitude (a thousand billion billion billion times) stronger than gravity. **The visible universe is constituted almost entirely of electrically active plasma.**

In the twentieth-century, the pioneers of plasma science inspired a new school of investigation called *plasma cosmology*.

**Plasma cosmologists suggest that electricity is the primary force organizing spiral galaxies and the astonishing galactic clusters now seen in deep space.**

Plasma cosmology has achieved surprising success in predicting major discoveries of the space age.

**This new perspective does not require purely theoretical inventions based on mathematical assumptions like the Big Bang, dark matter, dark energy, neutron stars, or Black Holes**

### Stars

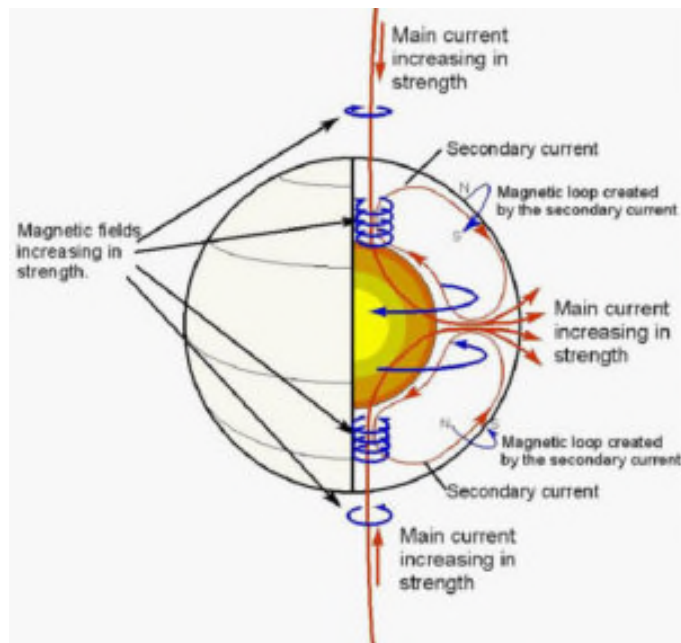

An Electric Universe extends the findings of plasma cosmology to the formation and evolution of stars and their planetary satellites. Stars are formed at the intersections of galactic current filaments in dusty space plasma. The size of a star and its color are determined electrically and may change suddenly. Novae and supernovae are the explosive response of stars to a power surge in their galactic circuit.

Proponents of the Electric Universe suggest that there are no isolated islands in the universe. All objects in space, from subatomic particles to galactic clusters, are connected by manifestations of the electric force acting in real-time.

The Standard Model of the Sun proposes that pressure at the core of the Sun provokes a thermonuclear reaction. Proponents of this model say that this thermonuclear furnace causes the Sun to shine.

The Electric Sun Model, on the other hand, envisions thermonuclear reactions and neutrino production at or close to the surface of the Sun where the maximum exchange between the Sun and its external environment occurs.

[www.everythingselectric.com/electric-sun/](http://www.everythingselectric.com/electric-sun/)

It is electricity that energizes the stars, including the Sun, in a form of glow discharge. This external power source explains why the temperature of the Sun increases above the photosphere to

coronal temperatures of 2 million degrees. Powerful plasma feedback effects maintain a steady output of visible solar radiation while variations in power input show up in the familiar sunspot cycle.

It is in the nature of a glow discharge that all stars possess a weak electric field beyond the corona. As charged particles of the solar wind move away from the Sun, they continue to be accelerated due to the Sun's electric field, which extends to the heliopause.

Watch Scientists Claim Discovery “Confirms” Standard Solar Model for more information on the differences between the two stellar models.

## Comets

Comets are electrically charged bodies moving on elliptical orbits through the Sun's interplanetary electric field. As it approaches the Sun, the comet's swift radial movement develops arcing on the nucleus. The arcs produce jets of dust and ions that form the coma and visible tails.

Many comets are solid rocks with dry surfaces. The sharply defined features of comet nuclei make clear that they are not “dirty snowballs” sublimating in the Sun. Due to the electric force, a comet can entrain a mass of hydrogen from the Sun greater than the mass of the comet's nucleus. The unexpected X-rays of a cometary discharge can reach 2 million degrees.

Cometary nuclei reveal deeply cratered and blackened surfaces due to electric arcing. Since comet nuclei are eroded electrically, they could not survive across eons of solar system history and may have been produced much more recently than proposed in the Standard Model.

## Planetary Science

In the recent history of the solar system, its electrical environment changed. Under changing electrical conditions planetary orbits changed as well. Close approaches of planets led to powerful electric arcing between planets and moons. All rocky bodies in the solar system show the massive scars of these kinds of electrical events.

Electric discharge scarring is occurring even now on Jupiter's closest moon, Io, and on Saturn's moon, Enceladus. Electrical activity continues on Mars, driving "dust devils" the size of Mount Everest – created by the electrical differential between the surface of Mars and surrounding space.

All of the dominant surface features of Mars show the patterns of electric discharge, suggesting that in the past a vast quantity of material was excavated

electrically from Mars. Electric Universe proponents suggest that it was an interplanetary arc that created the Martian Valles Marineris, the largest known scar on a solid planet. Much of the rocky material exploding from Mars became comets, asteroids, and meteorites.

***Laboratory experiments accurately model planetary scarring.***

Additional information about the electrical scarring of Mars is available here.

Whether it is a glass sphere at a Science Museum or a photo from deep space, electric phenomena follow the same principles and make similar patterns regardless of scale.

A young universe is a reality as the Bible and other ancient sources record.

# The “Trump Doctrine” for the Middle East

by Guy Millière June 13, 2018

[www.gatestoneinstitute.org/12506/trump-doctrine-middle-east](http://www.gatestoneinstitute.org/12506/trump-doctrine-middle-east)

§ Trump has shown the strength of the United States and restored its credibility in a region where strength and force determine credibility.

§ Trump more broadly laid the foundation for a new alliance of the United States with the Sunni Arab world, but he put two conditions on it: a cessation of all Sunni Arab support for Islamic terrorism and an openness to the prospect of a regional peace that included Israel.

§ Secretary of State Pompeo spoke of the "Palestinians", not of the Palestinian Authority, as in Iran, possibly to emphasize the distinction between the people and their leadership, and that the leadership in both situations, may no longer be part of the solution. Hamas, for the US, is clearly not part of any solution.

§ Netanyahu rightly said that Palestinian leaders, whoever they may be, do not want peace with Israel, but "peace without Israel". What instead could take place would be peace without the Palestinian leaders. What could also take place would be peace without the Iranian mullahs.

After three successive American Presidents had used a six-month waiver to defer moving the US Embassy to Jerusalem for more than two decades, President Donald J. Trump decided not to wait any longer. On December 7, 2017, he declared that the United States recognizes Jerusalem as the capital of Israel; the official embassy transfer took place on May 14th, the day of Israel's 70th anniversary.

From the moment of Trump's declaration, leaders of the Muslim world expressed anger and announced major trouble. An Islamic summit conference was convened in Istanbul a week later, and ended with statements about a "crime against Palestine". Western European leaders followed suit. Germany's Chancellor Angela Merkel said that President Trump's decision was a "serious mistake" and could have huge "consequences". French President Emmanuel Macron, going further, declared that the decision could provoke a "war".

# YESHUA REMEMBRANCE SERVICE

**Leader:** <sup>31</sup> "Here, the days are coming," says Y'HoVaH, "when I will make a new Covenant with the house of Isra'el and with the house of Y'hudah. <sup>32</sup> It will not be like the covenant I made with their fathers on the day I took them by their hand and brought them out of the land of Egypt; because they, for their part violated My Covenant, even though I, for my part, was a husband to them," says Y'HoVaH. <sup>33</sup> "For this is the Covenant I will make with the house of Israel after those days," says Y'HoVaH, "I will put My Torah within them and write it on their hearts; I will be their Elohim, and they will be My people. (Yirem'yahu ~*Jeremiah 31:31-33*)

**Congregation:** *Isa 12:2* "See! Elohim is my salvation; I am confident and unafraid; for Y'HoVaH Elohim is my strength and my song, and He has become my salvation!" *Isa 12:3* Then you will joyfully draw water from the springs of salvation. *Ps 3:8* Victory comes from Y'HoVaH; may Your blessing rest on Your people. *Ps 46:7* Y'HoVaH Tzva'ot is with us, our fortress, the Elohim of Ya'akov.

**Leader:** "Baruch ata Y'HoVaH, Eloheinu Melech Ha'olam, ha motze lechem m'in ha eretz."  
**Divide Chullah ~platted loaf**

**Congregation:** "Blessed are You Y'HoVaH our Elohim, King of the Universe who has brought forth bread from the earth. Y'HoVaH Tzva'ot, how happy is anyone who trusts in You! (*Ps 84:12*). Give victory Y'HoVaH! Let the King answer us the day we call. (*Ps 20:9*) I will take the cup of redemption and call upon the Name, Y'HoVaH. (*Ps 116:13*).

**Leader:** (with cup in right hand) "The cup of deliverance I raise and in the Name of Y'HoVaH, Yeshua HaMashiach, I call: Baruch atah Y'HoVaH, Eloheinu Melech, ha'olam, boray p'ri ha'gafen." (Replace cup with spices)

**Congregation:** Blessed are You, Y'HoVaH our Elohim, King of the universe, who creates the fruit of the vine.

**Leader:** Lifting spice container in right hand, says... "Baruch atah Y'HoVaH, Eloheinu Melech ha'olam, boray meenee besamim."

**Congregation:** Blessed are You, Y'HoVaH our Elohim, King of the universe, who creates the various spices.

**Leader:** As Avram gave to Malki-Tzedek according to B'resheet ~*Genesis 14:18-20*, let us all come, make our offering, take some Chullah; smell the spices; take your cup and return to your seats and wait, so we can partake together.

**Leader:** Pray in relation to what Yeshua has done in connection with the day's Torah portion. "Let us eat and drink together".

**Aharonic Blessing (Hebrew & English) from Tamar & Malachi (Num 6:22-27)**

**Leader:** Our Abba and Elohim of our fathers, we thank you for the joy and rest of this Shabbat. May the coming week bring gladness & peace, health & achievement. Like the fragrance of the besamim, we pray that the days ahead bring sweetness to our lives and the lives of our loved ones. May the peace, which we are enjoying linger till we gather for Shabbat next week.

We ask this in Yeshua's name, Amein.
