# Armour of God

## Ephesians 6:10-19 ESV

10 Finally, be strong in the Lord and in the strength of his might.

11 Put on the whole Armour of God, that you may be able to stand against the schemes of the devil.

12 For we do not wrestle against flesh and blood, but against the rulers, against the authorities, against the cosmic powers over this present darkness, against the spiritual forces of evil in the heavenly places.

13 Therefore take up the whole Armour of God, that you may be able to withstand in the evil day, and having done all, to stand firm.

14 Stand therefore, having fastened on the belt of truth, and having put on the breastplate of righteousness,

15 and, as shoes for your feet, having put on the readiness given by the gospel of peace.

16 In all circumstances take up the shield of faith, with which you can extinguish all the flaming darts of the evil one;

17 and take the helmet of salvation, and the sword of the Spirit, which is the word of God,

18 praying at all times in the Spirit, with all prayer and supplication. To that end, keep alert with all perseverance, making supplication for all the saints,

19 and also for me, that words may be given to me in opening my mouth boldly to proclaim the mystery of the gospel, *~good news of the kingdom.*

## Sequential CQ / HCQ Research Papers and Reports

January to April 20, 2020

### Executive Summary Interpretation of the Data In This Report

Note: HCQ is Hydroxychloroquine  
and AZ is Azithromycin

The HCQ-AZ combination, **when started immediately** after diagnosis, appears to be a safe and efficient treatment for COVID-19, with a mortality rate of 0.5%, in elderly patients. It avoids worsening and clears virus persistence and contagious infectivity in most cases.

**Below is one the most recent research reports referenced.**

**12 April 2020**

*Raoult, D. Cohort of 1061 COVID-18 cases treated with HCQ-AZ Combination with 9 day follow-up. IHU Méditerranée Infection, Marseille.*

<http://covexit.com/professor-didier-raoult-releases-the-results-of-a-new-hydroxychloroquine-treatment-study-on-1061-patients/>  
or <https://tinyurl.com/sacal94>

A cohort of 1061 COVID-19 patients, treated for at least 3 days with the HCQ-AZ combination and a follow-up of at least 9 days was investigated. Endpoints were death, worsening and viral shedding persistence. From March 3rd to April 9th, 2020, 59,655 specimens from 38,617 patients were tested for COVID-19 by PCR. Of the 3,165 positive patients placed in the care of our institute, **1061 previously unpublished patients met the inclusion criteria for a Hydroxychloroquine -Azithromycin trial.**

Mean age was 43.6 years old and 492 were male (46.4%), **As in other studies, no cardiac toxicity was observed in this study.**

- A good clinical outcome and virological cure was obtained in 973 patients out of a total pf 1061 patients within 10 days (91.7%).

- Mortality was significantly lower in patients who had received > 3 days of HCQ-AZ than in patients treated with other regimens both at IHU and in all Marseille public hospitals ( $p < 10^{-2}$ ).

**A poor outcome was observed for 46 patients (4.3%);** -10 were transferred to intensive care units, 5 patients died (0.47%) (74-95 years old), 31 required 10 days of hospitalization or more. **Among this group, 25 patients are now cured and 16 are still hospitalized (98% of patients cured so far).**

...Charts and tables ...

Prolonged viral carriage at completion of treatment was observed in 47 patients (4.4%) and was associated with a higher viral load and more advanced disease at diagnosis ( $p < 10^{-2}$ ) but viral culture was negative at day 10 and all but one were PCR-cleared at day 15.

Poor clinical outcome was significantly associated to older age (OR 1.11), initial higher severity (OR 10.05) and low Hydroxychloroquine serum concentration.

**In addition, both poor clinical and virological outcomes were associated with patients taking selective beta-blocking agents and angiotensin II receptor blockers ( $P < 0.05$ ) for Hypertension.**

Can't major donors and financiers influence the policies of world bodies?

## Meet the world's most powerful doctor: Bill Gates

By Natalie Huet and Carmen Paun

**The software mogul's sway over the World Health Organization spurs criticism about misplaced priorities and undue influence.**

Some billionaires are satisfied with buying themselves an island. Bill Gates got a United Nations health

agency in Geneva.

Over the past decade, the world's richest man has become the World Health Organization's second biggest donor, second only to the United States and just above the United Kingdom. This largesse gives him outsized influence over its agenda, one that could grow as the U.S. and the U.K. threaten to cut funding if the agency doesn't make a better investment case.

The result, say his critics, is that Gates' priorities have become the WHO's. Rather than focusing on strengthening health care in poor countries — that would help, in their view, to contain future outbreaks like the Ebola epidemic — the agency spends a disproportionate amount of its resources on projects with the measurable outcomes Gates prefers, such as the effort to eradicate polio.

Concerns about the software billionaire's sway — roughly a quarter of WHO's budget goes toward polio eradication — has led to an effort to rein him in. But he remains a force to be reckoned with, as WHO prepares to elect one of three finalists to lead the organization.

"All of the candidates are going to have to ally with him in some way," said Sophie Harman, associate professor of international politics at Queen Mary University of London. "You can't ignore him."

Evidence of Gates' unprecedented influence abounds in ways subtle and showy.

***"He is treated liked a head of state, not only at the WHO, but also at the G20"*** — Geneva-based NGO representative

Already a decade ago, when Gates started throwing money into malaria eradication, top officials — including the chief of the WHO's malaria program — raised concerns that the foundation was distorting research priorities. "The term often used was 'monopolistic philanthropy', the idea that Gates was taking his approach to computers and applying it to the Gates Foundation," said a source close to the WHO board.

## **Trump announces US will halt funding to World Health Organization over coronavirus response**

*By Gregg Re | Fox News*

President Trump announced at the White House coronavirus news briefing in the Rose Garden on Tuesday (April 14th) that the United States will immediately halt all funding for the World Health Organization (WHO), saying it had put "political correctness over lifesaving measures."

The United States is the WHO's largest single donor, and the State Department had previously planned to provide the agency \$893 million in the current two-year funding period. Trump said the United States contributes roughly \$400 to \$500 million per year to WHO, while China offers only about \$40 million. The money saved will go to areas that "most need it," Trump asserted.

Trump declared that the United States would undertake a 60-to-90 day investigation into why the "China-centric" WHO had caused "so much death" by "severely mismanaging and covering up" the coronavirus' spread, including by making the "disastrous" decision to oppose travel restrictions on China. *\* Dig anons.*
