# Plague of Corruption: Vaccination Research

The plague of corruption that surrounds the design of global public health policies as well as government national vaccination programs is gradually being exposed. Here is **Dr. Judy Mikovits PhD**, a molecular biologist, describing how the most corrupt measures were used to suppress her scientific research on the risks of vaccines in the cause of chronic illnesses in 2011 - [Plandemic Part 1 \(Dr. Judy Mikovits\)](#).

This research demonstrated that vaccines that contain animal and human foetal DNA are **a significant causal factor** in the plague of chronic illness that is being observed in human populations. In her interview she exposes the power that Dr. Fauci (US advisor to Trump on COVID19) had in suppressing the scientific literature that did not support the government's agenda of vaccinating the population with multiple new vaccines.

Here is a link to Dr Judy Mikovits book that she co-authored with Kent Heckenlively (foreword by Robert F. Kennedy, environmental lawyer) - [The Plague of Corruption: Restoring Faith in the Promise of Science](#). This book describes the systematic suppression and de-funding of important safety science on vaccines and the extreme measures that were taken by Dr. Fauci

to suppress this research. This included arresting Dr. Mikovits without a warrant and holding her for 5 days in jail without any charge until she signed a gag order preventing her from discussing her research on social media for 5 years (2011 - 2016).

## Media Corruption on Vaccination Science

The media promotion of false scientific information on vaccines is due to the influence of the Bill and Melinda Gates Foundation (BMGF) in the funding of all official channels for the promotion of vaccination programs. Here is a link to a 23 min video describing - [How Bill Gates Monopolised Global Health](#).

He has an extreme conflict of interest in monopolising global health policies because he directly profits from the vaccine technology that is promoted to every country by the GAVI alliance/WHO partnership. The BMGF marketing program ensures that this extreme COI in the promotion of vaccines is debunked to the public in the mainstream media by simply claiming this is a 'conspiracy theory' spread by 'anti-vaxxers' – *even when the facts are presented [with evidence in PhD research](#)*.

# 'Australia the Stand-Out Loser' says Nobel Prize Winner

A top UK scientist, Michael Levitt, described Australia as being the "[stand-out loser](#) for implementing lockdowns and damaging the economy when there was not a single case of this disease in the country. This advice was based on the Gates/CDC/WHO 'predictive contagion model' that used flawed assumptions about viruses to [wildly exaggerate the deaths](#) from a new mutated influenza virus – *Novel 2019 Coronavirus* (or SARS-Cov2).

The US government [dumped this predictive model](#) on 13<sup>th</sup> April because “the predictions were not based on REAL data”.

In addition, the UK advisor to Boris Johnson, Professor Neil Ferguson, who also used this model [to make wildly exaggerated claims](#) about the deaths from this new flu virus, [has resigned his position](#) as advisor on COVID19 because of his hypocritical behaviour.

Is this is the same model that the Australian Prime Minister, Scott Morrison, used to call a pandemic of this disease in January 2020 *before* the World Health Organisation had even assessed the human to human transmissibility of the new virus? Currently, Scott Morrison is falsely claiming that the social distancing

was necessary to control this virus in Australia but there is [no scientific data to support this claim](#).

He based his decisions on the data provided by the head of ['Australias Biosecurity Program, Raina MacIntyre](#). She predicted in January there would be 260,000 – 390,000 deaths from this new influenza virus based on *information from other countries*. This is not an evidence-based prediction about the new virus because it is not based on Australian data. Australian data was not available in January.

It is necessary to have knowledge of the transmissibility of viruses *under Australian environmental conditions before* mitigating action is taken. These predictions were based on false scientific assumptions in mathematical models and they led to the unnecessary lockdown of the healthy Australian community and destruction of our economy.

A lockdown of healthy people would be a last resort in the control of any infectious agent because you need REAL data from each country to determine how pathogenic (disease-causing) the virus is before you take action. This property of viruses varies from country to country. The government is required to implement actions that are *proportionate to the risk* of a new virus in the country and this can only be determined after the virus is observed in the conditions of that country.

The Australian Prime Minister did not have this information when he applied for emergency powers (before any other country) on 21 January 2020. This has enacted Australia's biosecurity legislation that includes forced mandatory vaccination. This decision was made even before the WHO had declared a 'global pandemic' based on the flawed Gates/WHO prediction model on 11 March 2020.

Scott Morrison has removed human rights in Australia unlawfully without independent scientific evidence and he must be accountable for the destruction this has caused to Australia's economy and to the health and well being of the community, particularly the elderly who have been locked down without visitors in many aged-care facilities: an act that has been described by a former UK Supreme Court Judge as "[a cruel mockery of basic human values](#)".

Morrison is also claiming that his emergency powers enable him to mandate the flu vaccine to employees and visitors to aged-care facilities. This has been pushed since the 1 May 2020 but given the flawed science that has been used to enact the emergency powers, and that Australians have not given their consent to mandatory vaccination polices, these directives should *be immediately repealed*.

We have a right to participate in all aspects of Australian society without using vaccinations, without medical

testing, without social distancing without a loss of our privacy through apps that trace our movements and contacts. Scott Morrison is responsible for the actions that were taken in January based on false scientific assumptions and he needs to be accountable for implementing measures that have removed freedoms unnecessarily and harmed our health and economy.

Please visit this link to find out more about the [plague of corruption in Australian vaccination policies](#). My book - [Vaccination: Australia's Loss of Health Freedom](#) - is now available.

# Vaccine safety isn't the goal... mass murder and depopulation is the real objective

[www.NaturalNews.com](http://www.NaturalNews.com)

Source: <https://tinyurl.com/y9qhv256>

With Los Angeles County recently announcing a plan to keep its residents locked down for another three months, and with the FDA and CDC conspiring with Big Pharma to grant “emergency approval” to vaccines which could not possibly go through the required safety trials, it’s abundantly clear that safety is not the issue.

Even Bill Gates now admits that 700,000 people could experience side effects from a coronavirus vaccine, and some of those side effects no doubt include death.

The real goal here is to corral human beings like cattle and subject them to a “kill switch” vaccine injection, which will obviously be engineered with infertility chemicals (soft kill) and engineered elements that cause a cytokine storm death upon a subsequent infection (hard kill). Depopulation has been the goal all along. That’s why they need all the RFID tracking technology: to make sure they’ve injected everyone while tracking now “refuseniks” to be arrested and injected at gunpoint.

And that’s why vaccine mandates are going to be aggressively resisted by the “human resistance” members, who are already aware that the US military is being prepared for a vaccine mandate deployment mission on US soil. President Trump, meanwhile, has become the “vaccine president” and has apparently gone all-in with Big Pharma, pushing his “Operation Warp Speed” project that makes a mockery of the very idea of “evidence-based medicine” or vaccine safety.

Resistance against coronavirus vaccines is already accelerating. It looks like even mainstream conservatives are going to fight to resist the coming vaccine mandates, while so-called “pro choice” progressives are going to claim the government owns your body and can forcibly inject you with anything they want, including experimental, unproven vaccine cocktails. One thing that has emerged from all this is how conservatives are now more skeptical of vaccines than ever before... and the battle for medical choice is rapidly gaining awareness...
