A GLOBAL MEDICAL TYRANNY VACCINES ARE DESTROYING THE GENETIC FABRIC OF SOCIETY

Dr Judy Wilyman PhD 25 Sept. 2020

"I have been studying the vaccination topic both formally and informally since 1993 when I vaccinated my first child.

Like most people questioning vaccines, I have not come from an anti-vaccination position and the debate is not about pro or anti-vaccination.

It is about safety, efficacy and necessity for each vaccine on the schedule. Are they all safe? And are they all effective and necessary?

The Evidence that supports the Claim that Vaccines are Destroying the Genetic Fabric of Society

In 1960 Australian **Frank MacFarlane Burnet** received the Nobel Prize for immunology. At this time he [stated](#):

*"Genetics, nutrition, psychological and environmental factors may play a more important role in resistance to disease than the **assumed benefits** of artificial immunity induced by vaccination".*

He considered that "*genetic*

*deterioration of the population may be a consequence of universal mass vaccination and he postulated that in the long-term vaccination may be **against** the best interests of the state".*

In addition to these statements, **Stanley Plotkin**, who is considered the '*Father of World Vaccinology*' stated in 2019 that '[antibody titre is not a reliable indicator because we do not know precisely how antibodies work](#)'. This is significant because the efficacy of all vaccines is based **solely** on the surrogate of **antibody titre**. And as we know many [vaccinated children](#) are still getting the diseases they are vaccinated against.

It is also important to note that the human immune system is **more complex** than just an **antibody response**, and natural immunity is not the same as artificial **vaccine-induced** immunity (antibody titre).

By 2004 [~45% of children 0-14 years of age](#) in all highly vaccinated populations, had a chronic illness and in 2020 this figure is now closer to 50% in many countries.

Many parents are now long-term carers for children who will never reach their potential in life. In addition, the incidence of autism is predicted to be 1 in 2 children by 2032; a disease that is **4-times more prevalent** in boys than girls.

Yet governments globally have ignored

these facts and the overwhelming science linking these diseases to vaccines for three decades. They have also ignored the well known **contraindications** to vaccines that are **due to genetics** (family history), by reducing all of these contraindications to just one - **anaphylaxis**. And family history is not enough - you must try the vaccine first.

On the advice of the medical-industry complex, governments and doctors are claiming that this **significant increase in chronic illness in children** is a 'coincidence' after vaccination. Governments have ignored basic scientific principles of evidence-based medicine to provide this response to parents for decades.

My Publications on the Ethics of Mandatory and Coercive Vaccination Policies

1. ['A new strain of influenza or a change in surveillance?'](#) After investigating the **Swine flu 'pandemic'** of 2009, **that did not turn out to be a 'pandemic'**, I had this article published in the **Australasian College of Environmental and Nutritional Medicine (ACNEM)** Vol 28, No 4, Dec 2009. The article describes how increased surveillance of a disease can be used to give the **appearance** of an **increased**

number of cases which can be **misused** by the media to create fear about a new virus. This can be achieved through statistical manipulation as we have observed in both 2009 and now in 2020 with COVID19.

[Mandatory and Coercive Vaccination: how ethical is this policy?'](#)

2. - A poster presentation at the **Australian Health Promotion Association** conference in Perth 2009.
3. An article published in the **Medical Veritas Journal** in 2015 - [The Ethics of Childhood Influenza: should Australian children be immunised against influenza?](#)
Influenza is a disease that the majority of children and adults are not at risk of dying from - has this changed in 2020 or is it a change to the diagnostic criteria for influenza?
Whilst it can be stated that there has been a serious outbreak of disease in some countries in 2020, this cannot be described as a **"global pandemic"** because this declaration was based on changing the definition of a pandemic in 2009 and on the flawed assumptions used in the **mathematical modelling** for this virus in all countries. This is

explained in my [video presentation here](#) and in this document that has just been released - '[Global Report 2019-nCoV: There is no global pandemic. The data is clear](#)'.

COVID19 POSITIVE SURVIVAL RATIOS

The US CDC last week updated the fatality rates of those testing positive for Covid19.

<https://cdc.gov/coronavirus/2019-ncov/hcp/planning-scenarios.html>

On the above webpage, scroll down to **The Parameter values Table 1** which shows.

Current Best Estimate - Fatality ratio

0-19 years: 0.00003
20-49 years: 0.0002
50-69 years: 0.005
70+ years: 0.054

The above fatality ratios are per each infected person.

What are the Survival rates?

Well, logically the inverse of the fatality ratio is the survival ratio. See an explanation below.

From the above figures the **Survival ratio** as a **percentage of infected people** can be calculated as

0-19 years	99.997%
20-49 years	99.98%
50-69 years	99.5%
70+ years	94.6%

The calculation is simple.

The **Survival Ratio** of infected people is calculated by subtracting the **Fatality ratio** from 1.00000 and multiplying the result by 100.

Example: The fatality ratio in ages from 0-19 years is 0.00003, which is per 1 person. The ratios are something to one.

So the Survival ratio is $1 - 0.00003 = 0.99997$ per 1.

Multiply by 100 gives the per 100 ratio = 99.997%.

Institutional Child Sexual Abuse – is the Judiciary complicit?

Senator Bill Heffernan appealed to Legal and Constitutional Affairs Legislative Committee to include in the terms of reference the “institution of the law” stating he has the documents to justify that case.

On the 20th October 2015, the Legal and Constitutional Affairs Legislation Committee convened, and Liberal Senator, the Hon. William D Heffernan delivered an impassioned

call to action to the Attorney General, using parliamentary privilege to accuse an unnamed former Prime Minister (and 27 other leaders in Australia) of being alleged pedophiles, while also pointing the finger at a complicit Australian judiciary.

Many of the people on the list and otherwise named in the documents were "prominent", Senator Heffernan said: "They were delivered to me by a police agency some time ago because no one seems to want to deal with them."

The Royal Commission into Institutional Responses to Child Sexual Abuse was empowered to investigate institutions including sporting groups, schools, churches and after-school care services. It was invested with the power to investigate abuse that occurs in an institutional context, in "any public or private body, agency, association, club, institution, organisation or other entity or group of entities of any kind (whether incorporated or unincorporated)".

The Hon Senator Heffernan proposed a wider definition of "institution" in the Royal Commission's terms of reference: "I actually want to go to the proposition, Mr Attorney, that we should include in the terms of reference the "institution of the law," and I have documents here, which the Royal Commission has seen, to justify that

case—and in fact every Attorney-General from Attorney-General Ruddock until now has seen some of these documents. They are police documents, and they are very disturbing."

He continued: "In the last 18 months I have put forward a case, which I initiated to remove a judge from the bench in New South Wales, Justice Garry Neilson—whose name in the trade is 'Gorilla in Black Lace'—and it succeeded to a point. He was hearing a case against a man who was found guilty of raping siblings and then faced new charges, and the judge would not allow the earlier charges into the court. During the hearing of the case and from the bench, he said to the court that he thought the law was out of date, that sex for siblings should be now legal and that it should not be illegal for men to have sex with children. I found that despicable and despising, and a display of complete bias of display from the bench."

For a 20 minute video of the Senator's speech watch <https://youtu.be/8YDTHKft9R4> For the full Hansard transcript go to :- <https://tinyurl.com/y3lptpfz> from <https://parlinfo.aph.gov.au/parlInfo/search/display/displayw3p;query=Id:%22committees/estimate/b2ac3d04-3b49-4dbc-b8f5-568935767ea9/0004%22;src1=sm1>

Is paedophilia a powerful weapon for blackmailing? Is it a serious threat to national security? e.g. Weren't Epstein's mansions supplied to him fully wired for video surveillance?
