# Australian Professor: IVERMECTIN (IVM) 'Amazingly Successful' in Killing Coronavirus

An Australian drug known as Ivermectin, which is already in use throughout the world to treat parasitic conditions, is showing great results in killing coronavirus in studies involving patients, [according to Sky News](#).

"Because I'm involved in developing these in the U.S. where all the patients are, there are a number of studies that are amazingly successful. We're talking close to 100%. In fact, we haven't seen a result

yet under 100%. It looks like corona is very simple to kill," Professor Thomas Borody, medical director of Australia's Center for Digestive Disease. "It's available as a prescription medication. You wouldn't use it alone ... but you add two other things to it such as doxycycline and zinc."

**Ivermectin is already approved by the FDA and is on the World Health Organization's list of model list of essential medicines.**

"We had a 14-hospital trial in Bangladesh. We got [cured] 100 out of 100. In China, they tried to reproduce it. They got 60 out of 60 cured ... So I am behind the Ivermectin, doxycycline, zinc treatment because it has very few side effects and is a real killer of coronavirus," Borody said.

Borody said the Ivermectin tablet [could cost as little as \\$2](#), which is likely why drugmakers haven't promoted the drug's usage. He also suggested that have a cure for the disease easily would do away with the need for people to be hospitalized, which would make doctors less money.

"There's no huge pharmaceutical company behind it to spend millions of dollars and put people in places to treat," Borody said.

# Morrison called out on wrong needle for Pfizer vaccination marketing stunt.

FEB 23 Posted by [Editor, cairnsnews](#)

OK people. So ..I have been a nurse for 16 years - i used to work in Emergency for many years. Scott Morrison is a FRAUD. He is not getting the vaccine in this picture. The nurse is using a 25 gauge, 1 ml subcutaneous insulin syringe (also the syringe choice of junkies - for intravenous injections .. straight in the vein). For any intramuscular injections a 23 - 21 gauge needle - 3ml syringe combo is used. With a green or blue cap not orange... the joy of being a nurse! 😊 you dont even have to SMELL the bullshit, you can SEE it from a distance! 🤔🤔🙏

BIG pharma executives know only too well the dangers of vaccines and the adverse reactions that range from death to disability or minor injuries like fainting or sore arms. To risk a severe reaction or even death from a vaccine given to a celebrity or prominent person would be too big a risk for the program and even before Cairns News was tipped off about Scott Morrison's apparently fake vaccination, we would have bet on the "celebrity vaccines" all being blanks.

Of the officially reported post

COVID vaccination deaths in the US, two thirds happened within 48 hours of the shots being given ([chart](#)). No pharma company is going to risk a prime minister or other notable person suffering any type of reaction. Hence Morrison's needle was the wrong type for mature male vaccination, as spotted by an observant Australian nurse.

Messenger RNA vaccines are already taking a massive toll worldwide. They were rushed through without the critical animal trials and are one of the most dangerous vaccines yet to hit the market. As reported by Robert F. Kennedy Jr's Children's Health Defense group, the COVID vaccine death toll is soaring.

“According to new data released today, as of Feb. 12, 15,923 adverse reactions to COVID vaccines, including 929 deaths, have been reported to the Centers for Disease Control and Preventions (CDC) Vaccine Adverse Event Reporting System (VAERS) since Dec. 14, 2020.

The [latest VAERS](#) data show that 799 of the deaths were reported in the U.S., and that about one-third of those deaths occurred within 48 hours of the individual receiving the vaccination.

“As is consistent with previous VAERS data reports, 192 of the reported deaths — or 21% — were cardiac-related. As The Defender reported earlier this month, Dr. J. Patrick Whelan, a pediatric rheumatologist, warned the U.S. Food and Drug Administration in December that mRNA vaccines like those developed by Pfizer and Moderna could cause heart attacks and other injuries in ways not assessed in safety trials.

## Peru Embraces Ivermectin (IVM) as Key Drug to Fight Coronavirus

### Peru is emerging as a leader in using an anti-parasitic drug to treat COVID-19 patients.

According to [TrialSite News](#), doctors in the South American nation are employing the use of ivermectin in the fight against the coronavirus.

As word spread in the medical community that Ivermectin was [showing promise](#) in successfully treating people afflicted with COVID-19, the Peruvian government approved its use for the disease in early May — without conducting any trials or having direct, firsthand evidence of its success. TrialSite News reported that Peru is now attempting to secure almost 500,000 treatments of the drug that's normally used to kill head lice and other parasites.

In late May, [Newsmax reported](#) that ivermectin was showing real promise in fighting the virus in several trials worldwide.

"This drug is salvaging people from their deathbed," emergency medical physician Dr. Peter H. Hibberd of Palm Beach County, Florida, told Newsmax.

In a U.S.-based study, meanwhile, doctors concluded that ivermectin [slashed the mortality rate](#) for coronavirus patients by 40%.

# Hydroxychloroquine: The Narrative That it Doesn't Work is the Biggest Hoax in Recent Human History
