Superparamagnetic nanoparticles delivered via vaccines

MAY 16 Posted by [Editor, cairnsnews](#)

([Natural News](#)) If you've seen any of the recent videos of magnets sticking to people's arms after they've been vaccinated, you might be wondering: Are there magnetic nanoparticles in those vaccines?

A study published in the National Library of Medicine in 2014 proves that “superparamagnetic nanoparticles” are successfully delivered into the body via vaccines, and once in the body, they can be used to inject DNA into cells, altering their genetics.

The study is entitled [Superparamagnetic nanoparticle delivery of DNA vaccine](#).

It states:

The use of superparamagnetic iron oxide nanoparticles (SPIONs) to deliver genes via magnetofection shows promise in improving the efficiency of gene delivery both in vitro and in vivo... Polyethylenimine was chosen to modify the surface of SPIONs

to assist the delivery of plasmid DNA into mammalian cells due to the polymer's extensive buffering capacity through the “proton sponge” effect.

A second study, also published in PubMed / National Library of Medicine, states that superparamagnetic nanoparticles can be driven into brain cells through the use of external magnets.

That study is entitled, [Superparamagnetic Nanoparticle Delivery to the Cochlea Through Round Window by External Magnetic Field: Feasibility and Toxicity](#).

The study found that external magnets were able to control SPIONs into injecting genetic material (DNA) into the cells of rats. This means that external magnetic fields can be used to cause “magnetofection,” which means the altering of DNA using external magnetic fields combined with special nanoparticles that are injected.

The study concluded:

The histological study of the cochleae showed that SPIONs were driven into the scala tympani in the basal turn, the second turn, and the apex.

What this tells us is crucial to understand: **Vaccine scientists have been experimenting with magnetic nanoparticles for many years**, and they've already created techniques to use vaccine injections to deliver nanoparticles into the brain, allowing them to be controlled by external magnetic fields.

[Electric cars in Australia as handy as an ashtray on a motorbike](#)

by [Editor, cairnsnews](#)

This is a boneyard near Paris, France with hundreds of electric powered cars.

Mind you these are only cars used by the City of Paris and not personal

vehicles. All of these have the same issue,.... the battery storage cells have given out and need replacing.

Why not just replace the batteries, you ask? Well two reasons. First the battery storage cells cost almost double what the vehicle cost when new, and second no landfill or disposals will allow the batteries to be disposed of there.

So these green fairy tale electric cars are all sitting in vacant lots while their batteries drain toxins into the ground.

Useless electric cars with a range of 200 kilometres only useful in major cities provided there is a power point. Using home mains power takes all night to recharge if you are lucky, but then mains power is generated by coal - thank God!

Still think we need to go green???

[Craig Kellys urges support for anti-vaccine passport bill at Sydney rally](#)

by [Editor, cairnsnews](#)

By **TONY MOBILIFONITIS**

SYDNEY MP Craig Kelly MP won wild applause from a crowd in Hyde Park Sydney (see below) on May 23, when he delivered an [impassioned plea](#) for the restoration of Australian freedoms stolen by a corrupt combination of government and corporate "health" interests.

Kelly said he was standing as an independent MP at great personal cost but had won support from his Nationals MP friend George Christensen, the Member for Dawson, as a seconder for his No Domestic

Vaccine Passport Bill.

Kelly urged those at the rally to talk about the Bill with their MPs and get their support. Christensen pledged his support for the Bill at the Freedom Day rally in Brisbane the weekend before.

“These vaccine passports are nothing more than marketing gimmicks for big pharma,” Kelly declared to the cheers of the protesters.

Kelly singled out medical coercion and government tyranny as the principal destroyers of Australian freedom. He recalled the shocking incident last year of a young Ballarat woman in her pyjamas being arrested by Victoria Police in front of her children for posting a protest meeting notice on Facebook.

But Kelly reserved his greatest condemnation for the Victorian government shutting diggers out of the Shrine of Remembrance on Anzac Day while allowing some 70,000 people to go to the footy later in the day.

“This is not the Australia I grew up in,” the MP said. “This is not the Australia I want my kids to grow up in.” But in Canberra the following

Monday and Tuesday, Kelly's colleagues were arguing about climate change policy and the sexual escapades of their staffers.

Also on the same days, the corrupt Victorian government whose premier is recovering from a savage assault which he is covering up, was again pushing the totalitarian shutdown agenda by announcing a new outbreak of so-called “COVID cases”.

It's now beyond doubt that COVID testing is fraudulent and “cases” are merely people found with DNA fragments of some past coronavirus flu or cold in their body that has been magnified 40 or so times and declared “positive” whether or not they display symptoms. But for Victoria and other Australian states' the COVID games have a limited life. Already in the US, states including Texas, Florida and Oklahoma are in open revolt against the WHO-WEF-Fauci-Gates-Rockefeller scamdemic.

EVERYONE VACCINATED for covid WILL DIE, warns French virologist

Tuesday, May 25, 2021 by: [Ethan Huff](#)
Source: <https://www.naturalnews.com>

There is [no chance of long-term survival](#) for anyone who received a Wuhan coronavirus (Covid-19) injection, according to leading French virologist Luc Montagnier. *Everyone* who is getting jabbed for the Chinese Virus will die, [he reportedly stated](#) during a recent interview, which you can watch below [at Brighteon.com](#).

"There is no hope and no possible treatment for those who have already been vaccinated," Montagnier stated plainly during the segment. "We must be prepared to cremate the bodies."

After studying at length the ingredients contained in the injections and what they do, Montagnier came to the conclusion that every single person who gets the shot will eventually die from antibody-dependent enhancement, or ADE. "That is all that can be said," he added.

Montagnier [is credited](#) with being the first to discover HIV, by the way, having warned last spring that the Wuhan Flu contains artificially spliced DNA from the autoimmune-provoking virus. It now appears as though these same alterations can be found in Chinese Virus "vaccines," which are priming people's bodies for eventual sudden death.

Montagnier also stated last year that the "presence of elements of HIV and germs of malaria in the genome of coronavirus is highly suspect and the characteristics of the virus could not have arisen naturally." It turns out he was right.

Wuhan Flu shots were designed to "slow kill" the masses through time-delayed death

It is one thing for the genetically modified (GMO) virus to be intentionally released, but a whole different thing for the medical establishment to then introduce an injection for it right in the middle of an alleged "pandemic." In Montagnier's view, this approach is

an "unacceptable mistake," at best, because all it will do is spread even more "variants" of the Chinese Virus and kill more people – which appears to have been the plan all along.

Evidence continues to mount that Chinese Virus injections were designed to be a "slow" kill for many, meaning their detrimental impact takes a bit of time to manifest.

For some, however, injury and death will come immediately, as we have seen in the headlines as of late. All of this would explain the mad rush to vaccinate people at "warp speed," using any ploy or coercion tactic necessary to reach the desired target.

Once enough vaccinated people start dropping dead, the remaining unvaccinated will more than likely resist, which is why the Biden regime is moving quickly to get as many people injected as possibly, preferably before July 4.

"The powers that be have your DNA from the swab tests in a database link with an artificial intelligence that will determine the best time for one to die, and it will be by a 'natural' cause like stroke or heart attack," one commenter at *Disclose.tv* wrote about people who are not necessarily vaccinated but who have undergone a covid "test." "A certain frequency will resonate with the target only by the mobility tower closest to your home. Skynet is not sending droids, but frequencies." More of the latest news about the death and destruction being brought to bear by Wuhan coronavirus (Covid-19) injections can be found at [ChemicalViolence.com](https://www.chemicalviolence.com).
