# The Commonwealth of Australia Constitution Act (The Constitution)

Source:

<https://www.knowyourrightsgroup.com.au/constitution/>

The Commonwealth of Australia Constitution Act 1900 is the single most important piece of legislation in this country and dictates precisely what the State and Federal governments can and cannot lawfully do.

We recommend that you all download a copy of that document – [which you can do here](#) – and read through it.

There are a couple of very important points to note about the Commonwealth Constitution and the Commonwealth of Australia Constitution Act that is the underlying Act that contains the Commonwealth Constitution.

The Commonwealth of Australia Constitution Act 1900 has 9 parts

and the ninth part contains the Commonwealth Constitution. However, there are some important parts to take note of before you get to part 9.

The first of those is the preamble, which states that it is “We, The People” that have the power to bring the Commonwealth of Australia Constitution Act into being. We are the highest law in the land.

The second covers clause 5, which states that the Act “shall be binding on the courts, judges, and the people of every State and of every part of the Commonwealth...” So, if any Magistrate or Judge tries to tell you that “the Constitution doesn't apply here”, you have an immediate response for him or her.

Then we get into the Commonwealth Constitution itself at part 9.

Some of the most important sections that will be relevant to you would be the following:

**Section 72** – which deals with the appointment and dismissal of judicial officers. All Judges must comply, so must police or anyone acting in a role of judicial/enforcement capacity. Ask

for a copy of their certificate and/or oath of office.

**Section 92** – which dictates that intercourse amongst the states shall be absolutely free.

Remember this the next time some private corporation tries to charge you a “toll” for using “their” road.

**Section 108** – which dictates that any colony that becomes a State under the Constitution – which is all of them – is subject to the Constitution.

**Section 109** – this goes on to state that, where there is a conflict between a State law and a Commonwealth law, then the latter shall prevail. Remember this next time someone tries to fine you based on a speed detection device that doesn't comply with Section 10 of the National Measurement Act - which is, of course, a Commonwealth Act.

**Section 115** – which details the fact that a State shall not make ANYTHING other than gold or silver coin legal tender in payment of a debt. Remember this any time you have any State debt to “pay” that is over \$20 – see Sections 9, 11, 16 & 22 of the Currency Act 1965 for further details.

**Section 117** – which states that a person cannot be subjected to any

discrimination because of a law that exists in one State but not another. Keep this in mind if you are ever charged for an offence in one state that is not an offence in another – ie having a radar detector in a State other than WA, or being a “bikie” in QLD.

**Section 118** – which states that full faith and credit will be to the laws, acts and public records, and the judicial proceedings of every State. Remember this when someone tries to tell you, for example, that the WA Fisheries case doesn't apply in your State, or when the police publicly admit that speed cameras have been proven to be faulty!

There are, of course, many other important sections of that fundamental document, but we believe that these are the ones that the average person can relate to on a day-to-day basis.

For those that want to research the Constitution even further, we recommend that you order our fully indexed, 1008 page, Quick and Garran Annotated Constitution CD from our [Products page](#). This CD gives you a comprehensive explanation of every single part of the Commonwealth Constitution.

Now, whilst we're on the subject of

Constitutions, do you realise that each State also has its own Constitution? Well, if you live in Victoria, guess what – you actually have two!

How can that be, you may ask – the fact is that it can't!

The issue is that the 1855 Victorian Constitution was never repealed, the Victorian Parliament just decided to make a new one in 1975 instead. Unfortunately for them, there is a legal maxim that dictates that “first in time, best in law” applies and, therefore, the 1855 Constitution takes precedence over the 1975 one. Also, Section 106 of the Commonwealth Constitution clearly states that “The constitution of each state ...” – that means that there can only be ONE Constitution for each State.

So, if you ever have a court case that involves the State of Victoria and they refer, in any way, to the 1975 Constitution, the above will be your response.

### **What about the Australia Act?**

People often contact us saying things like "The Court says none of this applies since the introduction of the Australia Act in 1986". How do you combat statements like that?

Well, as we have explained on a number of our radio shows, there are some fundamental issues with the Australia Act. Some of these are:

1. The Australia Act has no head of power. The head of Power under the Constitution is the Crown of the United Kingdom and Ireland.
2. The Australia Act was enacted by the "Parliament of Australia" which is NOT recognised as a legislator under section 1 of the Commonwealth Constitution.
3. The Australia Act was an attempt to equalise powers exclusive to the Federal Government to that of the States by allowing the States to put aside any obligations to the inherited laws of England and obligations to the Federal Government, this attempt was put to the people in question 2 of the 1984 Federal Referendum and failed.

### **Commonwealth of Australia Constitution Act ([The Constitution](#))**

**Section 108** – which dictates that any colony that becomes a State under the Constitution – which is all of them – is subject to the Constitution.

**Section 109** – this goes on to state that, where there is a conflict between a State law and a Commonwealth law, then the latter shall prevail.

Former Australian Army Special Forces Lt. Col. Riccardo Bosi and Leader of the Australia One Party, drawing on his over 40 years of experience, discusses the breakdown of global democracy and the rise of a totalitarian globalism that is now threatening all nations of the world. He details your legal rights in Australia as the government abuse your legal right by illegally forcing COVID vaccination or no work, etc.

**The Bio-security Act 2015 -**  
Quarantining the healthy is wrong in law.

**THE BIO-SECURITY ACT - SECT 60.**  
No person, other than a human bio-security officer, under the authority of the Bio-security Control Order for an individual, which has been granted by a Judge, in Court, with evidence. The emergency requirements are qualified and restricted by the significant fact that emergency requirements and directions can not request an individual to be isolated, detained, tested, vaccinated,

medically treated or bodily searched, amongst other actions, in the absence of a **Bio-Security Control Order** issued to the individual. The order must be done in a court of law, to an individual who is showing symptoms and is proven to be sick. It requires a judge to see evidence. The sick is quarantined and the healthy free to move about.

**Bosi "It doesn't matter Constable because the Bio-security Act is a piece of Federal legislation, and it supersedes any State law."**

**Section 61** (Specifies the conditions under which a control order may be issued and by whom.) It must be a listed human disease. There must be symptoms - the person must be symptomatic. History of contact with infectious people. All enforcements have rights of review.

#### **DEFENCE FORCE DISCIPLINE ACT**

**Unlawful Military Commands -** All military are required, under the Defence Force Discipline Act, to disobey an unlawful command.

If given one ,cover yourself... "Well Sir, I'd like a signed letter from you that this is a lawful command."

#### **Superior Orders.**

5. In Australia it is no defence to the commission of a criminal act or omission that it was done in obedience to the orders of a superior or the government. Military and civilians have a duty to obey lawful orders, and a duty to disobey unlawful orders. Any defence that conduct out of which this case arose was in obedience to orders which were not apparently unlawful may arise in other proceedings, but is not now pertinent.

# **"ITS ALL NOW INCREDIBLY CLEAR"**

by [Editor, cairnsnews](#)

**Everything we've been watching over the last 20 months has been a globalist-led effort to convince billions of people to exterminate themselves without them knowing it.**

See, waging an open kinetic war on humanity would meet instant resistance. People tend to fight back when they're being attacked & slaughtered with bullets & bombs.

Globalists had to figure out a way to carry out mass slaughter on planetary scale without alerting the masses to what they were doing.

It's a very difficult challenge, but they figured out how to achieve it in a few simple steps:

1. First, build a toxic nano.particle weapon system (the spike protein) and mass produce it in labs run by the Chinese and US military.
2. Fake an outbreak in China

along with "leaked" scary videos of Chinese people falling over dead in mere seconds after breathing in the "virus". cue media frenzy.

3. Drop the toxic nano.particles on New York City & Northern Italy . to simulate a "viral outbreak," while diagnosing people with "covid" via PCR tests that merely detect the presence of the toxic nano.particles.

4. Unleash mass media propaganda, claiming everybody will die unless they take vaccines.

5. Fill the vaccines with the exact same toxic nano.particles you dropped on New York City in the first place.

6. Unleash mass injections of the population with the spike protein bio.weapons, fraudulently labeled "vaccines."

7. As people get injected with the bio.weapons, they start shedding the toxic nan.oparticles, making others sick around them. frame this as a "worsening pandemic" to spread more fear and drive more people into the spike protein injections.

8. Censor anyone talking about vaccine injuries or deaths. Pay off hospital administrators to wildly exaggerate covid numbers to keep the scamdemic going.

In a nutshell, that's how they did it.

Notice there is no virus required to pull it off. All they needed was a spike protein nanoparticle weapon system combined with media collusion and Big Tech censorship.
