Mass exodus of 29,504 teachers from Queensland schools – no job for us Premier

– JAN 11 Posted by [Editor, cairnsnews](#)

<https://cairnsnews.org/2022/01/11/mass-exodus-of-29504-teachers-from-queensland-schools-no-job-for-us-premier/>

The Queensland state school starting date has been extended by two weeks due to insufficient numbers of children getting the Covid jab and an alleged 29, 504 teacher sackings.

Classes have been delayed by two weeks – from Monday, January 24 to Monday, February 7.

However students in years 11 and 12 will commence remote learning from Monday, January 31.

An Education Department official on a school-related social media website published the number 29,504, of alleged sackings yesterday which was recorded by a reliable source at the time.

The social media site has now disappeared.

Meanwhile emergency meetings between senior Education Department staff and the Minister continue.

The teachers' refusal to get the jab has caused a 33 per cent reduction in the entire teacher workforce, the

greatest ever exodus of experienced teachers in Queensland history.

According to public service data there are 97,279 fully registered teachers in Queensland.

The average age of approved teachers is 45.6 years, comprising 76.6% female and half of all teachers – 51.3% are over 45 years of age.

At the end of 2020, 68.6% of approved teachers were employed in a permanent or long-term temporary teaching position in Queensland. Supply teacher numbers are not recorded in the data. There are 16 % in non-state primary schools, 17% in non-state secondary schools, 40% in state primary schools and 27% in state secondary schools.

The female Labor Cabinet clique should be proud of their handiwork; not only have they destroyed the lives of 30,000 experienced and dedicated, caring teachers they have embarked on a genocidal campaign of children with an experimental, gene-altering inoculation.

Homeschooling has become the new norm for thousands of parents who have pulled their kids from the education system not wanting them to get the jab.

There are reports of communities establishing learning centres for kids to be taught by teachers who have resigned or been sacked by the department. Parents will pay the teachers out of their own pockets.

The Labor Party wreckers have

managed to destroy the education system in a month and not a peep from the LNP Shadow Minister for Education, Dr Christian Rowan.

Premier Anastacia Palaszczuk said about 478,000 children aged five to 11 were now eligible to receive the jab – with 26,000 already registering through Queensland Health to get their vaccine.

Dr Robert Malone – inventor of the mRNA “vaccines” writes:

“Before you inject your child — a decision that is irreversible — I wanted to let you know the scientific facts about this genetic vaccine, which is based on the mRNA vaccine technology I created. There are three issues parents need to understand: The first is that a viral gene will be injected into your children's cells. This gene forces your child's body to make toxic spike proteins. These proteins often cause permanent damage in children's critical organs, including: Their brain and nervous system. Their heart and blood vessels, including blood clots. Their reproductive system. This vaccine can trigger fundamental changes to their immune system. The most alarming point about this is that once these damages have occurred, they are irreparable: You can't fix the lesions within their brain. You can't repair heart tissue scarring. You can't repair a genetically reset immune system. This vaccine can cause reproductive damage that could affect future generations of your family. The second thing you need

to know about is the fact that this novel technology has not been adequately tested. We need at least 5 years of testing/research before we can really understand the risks. Harms and risks from new medicines often become revealed many years later.”

'Covid – 19' has a better survival rate than the flu

'-' [JAN 14](#) Posted by [Editor, cairnsnews](#)

by Kev Moore. Source:

<https://cairnsnews.org/2022/01/14/covid-19-has-a-better-survival-rate-than-the-flu/>

It is a proven, indisputable scientific fact that the “vaccine” does not prevent infection and spread of the Covid virus or variants. It is also an indisputable fact that we are experiencing a pandemic of the vaccinated. Vaccination causes injurious side-effects and deaths that hospitals mislabel “Covid deaths,” and the vaccine damages the human immune system, thus spreading the virus. The “vaccine” also cause variants that are used propagandistically to keep the fear hype going despite the fact that hardly any serious injuries or deaths are associated with the “Omicron variant.”

So why are public authorities using

extreme tyrannical methods to force people to infect themselves with a dangerous “vaccine” when, even if the “vaccine” did protect, the mortality of Covid is extremely low and does not justify the dangerous side effects of the “vaccine.”

It is an established fact that there are very few “deaths from Covid.” The deaths are “with Covid” among untreated infected people denied HCQ and Ivermectin who had serious comorbidities. In other words, the entire panic is orchestrated and nonsensical.

Massive 145-Country Study Shows Sharp INCREASE of Transmission and DEATH from COVID Vaccines rollouts.

[January 10, 2022](#)

Instead of bringing an end to this pandemic as promised, the widespread rollout of the experimental vaccines has actually **caused** a sharp increase in Covid-19 cases and deaths across the world, according to a [recently published](#) preprint study that looked at data from the 145 of the most vaccinated countries in the world.

The 99-page study titled “[Worldwide Bayesian Causal Impact Analysis of Vaccine Administration on Deaths and Cases Associated with COVID-19: A](#)

[BigData Analysis of 145 Countries](#)” found that in the US specifically, **the jab has caused a whopping 38% more Covid cases per million – and an even more astonishing 31% increase in deaths per million.**

In total, researchers found that **almost 90%** (89.84%) of the 145 countries experienced this negative effect from the vaccines after they were made available.

From the [study](#):

“Results indicate that the treatment (vaccine administration) has a strong and statistically significant propensity to causally increase the values in either y1 [variable chosen for deaths per million] or y2 [variable chosen for cases per million] over and above what would have been expected with no treatment.

y1 showed an increase/decrease ratio of (+115/-13), which means 89.84% of statistically significant countries showed an increase in total deaths per million associated with COVID-19 due directly to the causal impact of treatment initiation [vaccines].

y2 showed an increase/decrease ratio of (+105/-16) which means 86.78% of statistically significant countries showed an increase in total cases per million of COVID-19 due directly to the causal impact of treatment initiation.”

Researchers performed a causal analysis comparing both pre- and post-treatment periods to come up with the difference in cases and deaths since the implementation of the vaccine by analyzing publicly available COVID-19 data to determine the effect of their

widespread rollout. After eliminating all results from countries with low vaccination rates or incomplete data, there were 128 countries with sufficient data on deaths (y1) and 103 countries to examine total cases (y2), which comprised a total of 145 unique countries.

Perhaps the most telling part of the study's results is that the countries which recorded the fewest Covid deaths in 2020 were the ones to experience the largest increases in cases and deaths once the vaccine was introduced, with some of them seeing increases as high as over a thousand percent.

“Countries with few COVID-19 deaths in the year 2020 appear to have fared the worst of all countries after vaccine administration (e.g Thailand, Vietnam, Mongolia, Taiwan, Seychelles, Cambodia, etc.).

The causal impact results from vaccine administration seen in these countries [is] hundreds or thousands of percentage increases in total deaths and cases per million.

“...we can be most statistically confident in due to the direct increase of COVID-19 associated deaths and cases after vaccine administration where prior to vaccine administration there were few or none.”

In the study's conclusion, researchers warned that the substantial increase in deaths and cases should be “highly worrisome” for the policymakers around the world who have been promoting the experimental vaccines as the “key to gain back our freedoms.”

“The statistically significant and overwhelmingly positive causal impact after vaccine deployment on the dependent variables total deaths and total cases per million should be highly worrisome for policy makers. They indicate a marked increase in both COVID-19 related cases and death due directly to a vaccine deployment that was originally sold to the public as the 'key to gain back our freedoms.' The effect of vaccines on total cases per million and its low positive association with total vaccinations per hundred signifies a limited impact of vaccines on lowering COVID-19 associated cases.

These results should encourage local policy makers to make policy decisions based on data, not narrative, and based on local conditions, not global or national mandates. These results should also encourage policy makers to begin looking for other avenues out of the pandemic aside from mass vaccination campaigns.”

In short, this is just the latest evidence that we have been lied to throughout the entire manufactured pandemic.

These experimental, rushed vaccines have done nothing but make things worse and have only spurred the transmission of new variants.

Several studies have come to similar conclusions as this one, with two recently coming out that confirmed essentially the same thing – these vaccines actually are causing more illness than they prevent.
