Pfizer Covid vaccine has 1,291 side effects reveals official documents

by [Editor, cairnsnews](#) by Alison Ryan

The end of the road – the Pfizer Clinical Trials Documents

When Pfizer applied for FDA approval, they were aware of almost 158,000 adverse events. This really does not paint them in a favorable light. And now, a 38-page report features an appendix with a list that says Pfizer's COVID vaccine has 1,291 side effects.

The list includes acute kidney injury, acute flaccid myelitis, anti-sperm antibody positive, brain stem embolism, brain stem thrombosis, cardiac arrest, cardiac failure, cardiac ventricular thrombosis, cardiogenic shock, central nervous system vasculitis, death neonatal, deep vein thrombosis, encephalitis brain stem, encephalitis hemorrhagic, frontal lobe epilepsy, foaming at mouth, epileptic psychosis, facial paralysis, fetal distress syndrome, gastrointestinal amyloidosis, generalized tonic-clonic seizure, Hashimoto's encephalopathy, hepatic vascular thrombosis, herpes zoster reactivation, immune-mediated hepatitis, interstitial lung disease, jugular vein embolism, juvenile myoclonic epilepsy, liver injury, low birth weight, multisystem inflammatory syndrome in children, myocarditis, neonatal seizure, pancreatitis, pneumonia, stillbirth, tachycardia, temporal lobe epilepsy, testicular autoimmunity, thrombotic cerebral infarction, Type 1 diabetes mellitus, venous thrombosis neonatal, and vertebral artery thrombosis among 1,246 other medical conditions following vaccination.

"This is a bombshell," said Children's Health Defense (CHD) president and general counsel Mary Holland. "At least now we know why the FDA and Pfizer wanted to keep this data under wraps for 75 years. These findings should put an immediate end to the Pfizer Covid vaccines. The potential for serious harm is

clear, and those injured by the vaccines are prohibited from suing Pfizer for damages...."

Ukrainians ask themselves what biolabs supervised by the US Department of Defense might be doing in Ukraine

by Victoria Venk

Strana.ua via Stalkerzone.org 23 Apr 2020

On April 23rd the [US Embassy in Ukraine acknowledged](#) that there are biological laboratories in Ukraine that are under the control of the Pentagon. The [Ukrainian “Strana” news agency looked into this story](#).

On April 14th people's deputies from “[–Opposition Platform For Life](#)” [Viktor Medvedchuk](#) and [Renat Kuzmin](#) wrote requests to four leaders of the country: President Zelensky, Prime Minister Shmygal, Head of the SBU Bakanov, and Minister of Healthcare Stepanov.

In an appeal with reference to Serbian and Bulgarian media, it is **reported that the US has more than 400 bacteriological laboratories around the world, including at least 15 in Ukraine**. There are exclusively American ones, and they are **financed at the expense of the US Department of Defence**. The laboratories are located in Odessa, Vinnytsia, Uzhgorod, Lvov (three), Kiev (three), Kherson, Ternopol, and near Crimea and Lugansk.

People's deputies note that **the functioning of American bio-laboratories in Ukraine started during the presidency of [Viktor Yushchenko](#) and the premiership of [Yuliya Tymoshenko](#) – August 29th, 2005**.

Further, the people's deputies point out that after the launch of biolaboratories in Ukraine there were outbreaks of infectious diseases. (<https://tinyurl.com/4m94peaz>)

The South Australian government has officially launched a new \$1.5 Million vaccine immune-biology Laboratory.

Over the past two years, Agilex Biolabs has invested over \$3.5 million in technology and systems at its headquarters in Adelaide. Premier Steven Marshall launched the new facility and thanked the company for investing in the state and creating jobs in the sector.

The “Climate Change” narrative is being used to obfuscate the treasonous use of weaponized Weather Modification technology against the common-wealth of Australia.

BOM cancels severe weather warnings for Sydney - maybe there was a power outage at Jindalee

[MAR 10 Posted by Editor, cairnsnews](#)

Truth is “Climate Change” and Weather Modification are linked. Just look at how the ABC has started in earnest blaming severe weather on 'climate change'

In 1990's, Massachusetts Institute of Technology's Atmospheric Laboratory conducted field trials in non-conventional weather modification technologies. Through further studies, atmospheric researchers developed a theory that identified macro-scale weather chaos as 'the key' to influencing weather. During late 1990's an independent research team in Australia stumbled on an 'atmospheric mechanism' whilst exploring origins of this theory (link). (NA) Experimental trials revealed that “small amounts of electromagnetic energy, applied intelligently,” could force change into weather, based on atmospheric sine wave patterns. This research culminated in the development of an atmospheric resonance technology, represented by AQUIESS International (aquiess).

Electromagnetic wave forms are utilized to deliver signals toward a target weather system, that may be as remote as beyond the visible horizon. Proprietary technologies which draw upon data from locally applied hardware and software as well as disparate sensors, are deployed to modify the patterns forming 'oceanic corridors' that deliver rain. Scientific analysis of aquiess' results, shows what is described as 'resonance technology', has both a vast reach and incremental scalability. The core technology and primary IP are protected by treaties and strict security protocols which surround the project.

2011- RAINAID – AQUIESS

Aquiess has tested a technology, which utilizes an electromagnetic wave-form that can influence weather patterns remotely. This signal can be launched multiple times at a moving weather system to adjust its direction and velocity.

Generally, the signals are launched from ground-based servers and triangulate on a moving rainfall system. Utilizing a satellite feedback-loop to observe, review and re-launch signals, multiple 'adjustments' are created to influence pathways of the atmospheric 'rivers,' of precipitable moisture.

2012 – the past ten years the company Aquiess has repeatedly demonstrated this technology to government and humanitarian observer groups. The proprietary weather modification system operates by utilizing 'resonance' signals to divert oceanic atmospheric-rivers into areas.

2012 UN Rio+20 Conference on Sustainable Development. Global Rain Project. Dr Mahendra Shah, Aquiess Director of International Planning – Aquiess weather modification technology offers a cost effective and environmentally sustainable solution confronting world weather vulnerability to climate change including droughts, floods, hurricanes and other extreme events.

“It lays the predicate and foundation for the development of a weather satellite that will permit man to determine the world's cloud layer and ultimately to control the weather; and he who controls the weather will control the world” – Vice President Johnson at Southwest Texas State University (1962).
