Kill Grid: The vaxx, 5G and smart phones are inextricably linked

by [Editor, cairnsnews](#) by Alexandra Bruce

Source: <https://tinyurl.com/mr95wafx> Video: <https://tinyurl.com/35ttrzxe>

We've seen very clearly in recent days how the Biden Regime is waging war against Americans, by crashing the US economy and the US dollar with an engineered fuel- and food crisis.

This is clearly in tandem with the various genocidal initiatives that have been put in place in recent decades, like the glyphosate herbicides that have reduced human sperm counts by 90%, the forced-vaccination of school kids that has resulted in autism rates of 1 in 17, the carcinogenic 60 Hz fields from our electric grids and the weaponized millimeter waves of 5G, all of which are killing us softly.

This is to say nothing of the abiding demoralization campaign against life-affirming values that has been raging in pop culture since the 1960s.

The US was hijacked by the Globalists in 1913 and it was fully conquered in November 2020. [The Globalists are intent on reducing the human population and they're making their move now.](#)

The more people that become aware of this, the lesser the chance that they succeed.

Rights activist attorney, Todd Callender has been defending US servicemen from being forced to take the death shot. He's joined by Dr Pete Chambers, Special Operations Surgeon and Green Beret in the Texas National Guard, tech researcher, Nick Winters and medical researcher, Dr John Lukacs, along with Sean at the SGT Report for an in-depth discussion about the experimental jab technology, 5G and smart phones, which they believe are all linked to the eugenicists' kill grid.

Sean plays a clip from [La Quinta Columna](#) which shows how the radiation output of a cellphone changes, depending on the video content being played on the phone. When the content is anti-establishment, the radiation becomes much higher and more toxic.

In short, 5G is a bigger part of this picture than even the most paranoid among us may have thought.

John says that cell towers are ridiculously over-powered, saying, "To put it in perspective, a microwave oven is like a kilowatt – so it's a thousand watts. These towers, they have cables running up them; ten, twenty different cables that carry with them 300,000 watts max, each.

"So if you have ten cables, one of these towers has a maximum of three megawatts of power and these cables are not carrying data. This is not fiber optics. This is powering the [magnetron](#), basically.

"The FCC limits each array to 400 watts. But one watt from say, your phone can travel 25 miles. That's 1,000 of the stuff coming out of your microwave oven.

"What is concerning here is the modulation that is possible with the upgraded technology. They can dial this up, they can dial this back. My concern, here is that the amount of raw power, you couldn't imagine it.

"You literally could cook an entire city if you just crank the dial up to 11 for ten minutes. You could roast like a Thanksgiving turkey. And these towers are everywhere and there's multiple redundancies on all of them."

Based on the patents he's read, John thinks that the graphene oxide in the vaccines, in combination with cellphone tower radiation can create graphene hydroxide and cause self-assembly of different structures, based on the various nanoparticles present in a particular batch.

John says, "This is actually a manufacturing process that was a technological breakthrough that I came across reading trade papers."

He says that glutathione can help us to de-toxify from graphene oxide (GO) and help to eliminate it from the body. However, he says if there are large accumulations of GO in our body, the first thing that happens with a certain frequency of non-ionizing radiation from a cell tower is that it will hit these particles, causing them to multiply in physical mass by as much as 30 times.

"And it will combine with whatever else is around and form up whatever that recipe is specifically designed to tell it to form.

"So, if you want to take all the graphene oxide in your body and flip it into graphene hydroxide and flood your vasculature with little nano razor blades, as [Andreas Noack](#) warned us about, that's how it's done.

"They're using this infrastructure to create things, using the human

body as a manufacturing plant."

John doesn't know what the various recipes are but he has an idea.

"These are signals that are sent – and they don't have to be terahertz frequencies, they don't need to be anything exotic. They can be from 1 gigahertz to 2.4; the stuff that cordless phones are running on.

"But it is the pattern. It's kinda like a Morse Code. So, you'll have a pulse at this frequency for ten seconds, followed by a pulse for five seconds, followed by three pulses at one second. Something like that. This is what's described in the patents I've been reading.

"They can dial in a disease or a death like you're tuning in a radio station. And they can do it across a broad area. So this is the most dangerous aspect of this, because it's so covert and it's so science fiction, almost that hardly anyone believes it.

"But I can tell you, it is very well-grounded in science. All of the different allotropes of that graphene oxide material can be generated spontaneously, under the right EMF band. The can literally change the allotropes, from sheets to strings to Bucky Balls – there's like eight different ones."

The [essential points](#) of what Todd Callender believes are:

The Covid-19 and "vaccine" bioweapon operation is a planned genocide and war crime against humanity that is part of a multi-decade plan of the elites.

Both Covid-19 and the injection are man-made bioweapons that include bioengineered, synthetic, chimeric, hybrid microorganisms that are both part viral and part bacterial. They use [chimeric](#) *e. coli*, ebola, and Marburg in the shots.

The injections contain lipid nano-particles that carry these pathogenic chimeric microbes that invade cells and genetically modify them to produce spike proteins. The HIV protein in the bioweapons disable the body's autoimmune system allowing these lipid nano-particles to invade cells. The "vaccine" gives VAIDS, or "Vaccine Auto Immune Deficiency Syndrome". All those who are "vaxxed" will now test positive for HIV. People who have taken 3 shots have no immune system left. There is no other way to characterize this program other than unlawful homicide/genocide.

The military's own numbers in their DMED database show an 1,100%

increase in all causes of mortality and morbidity among 1.8 million US soldiers from 2020 to 2021. This population group is aged between 18 and 40 years. These forecasts predict a 5,000% increase in morbidity and mortality in this same group this year (2022).

Everyone who has taken the injections is participating in a Phase 3 Clinical Trial without having given informed consent.

This is all tied in to the widespread introduction of 5G communication system. The 5G (18-60) Gigahertz EM signal produces symptoms in humans identical with Covid-19 and the "vaccine." Also, the materials in the injections are designed to be activated upon exposure to the 18 GHz frequencies emitted by 5G antennas. Thus, 5G transmitters (0 to 100 GHz) will be the trigger mechanism for the Zombie Apocalypse.

The first major outbreaks of "Covid-19" occurred in Wuhan, China, Milan, Italy, and New York City just as these 5G communications systems were being activated for the first time.

The ADE response inside vaxxed people will turn loose the chimeric microorganisms that will turn them into N protein factories, which they will shed onto others and which are designed to be contagious. In this manner, 5G will create the zombies of the Zombie Apocalypse.

He says to look up the [IP36 Gene deletion syndrome](#). This is the number 1 serious adverse event listed by Pfizer. It is basically the Marburg infection and the Zombie Apocalypse.

In his litigation against the US Department of Defense for inflicting this genocidal weapon upon our soldiers, he observes that only Christians and those with a relationship with God generally have the discernment needed to understand the extent of evil now being inflicted upon us by our leaders.

The next plandemic will be to scare the resisters (unvaxxed) into compliance by making it so horrible that they will run to the quarantine centers (FEMA camps). There will be massive outbreaks of hemorrhagic fevers, people will be falling over dead from ebola.

People need to prepare and get in touch with their local sheriffs and representatives and the 5G towers must be taken down as fast as possible. They are the triggering mechanism for the next plandemic and a zombie apocalypse.

There's a lot more in this information-packed panel that's worth a listen.
